Introduction

If on the day that SAVAK surrounded Ayatollah Khomeini and joked with his words, where is your soldier?

And he said, "My soldiers are in the cradle!"

The spirit of Eisenhower and Carter learned that one day the soldiers in Khomeini's cradle would wrap up a 2,500-year-old petition of the imperial regime and no longer have gendarmes no the capitalization ,no the embassy and no an ambassador!

Khomeini's soldiers become one Hassan Hassani, the forerunner of Jewish nightmares that he commanded you to write on the tombstone. This is the grave of someone who wants to destroy Israel! He was a soldier in Khomeini's cradle who made a lot of records, intentions and intentions, so that Tel Aviv and Haifa would be considered plowed from now on and they would beg us not to kill them. They were written on the walls of Khorramshahr, we came to stay, but these Hassan Bagheri, Ahmad Motusalian, Sayad Shirazi, Qasem Soleimani and the soldiers were in Khomeini's cradle what they did to raise the picture of Imam Khomeini in Saddam's birthplace! Gone are the days when your axes landed on Khomeini's divers and buried them handcuffed, eating mustard and they were fighting with tanks! The last vertical generation of Lockheed Martin flights to Yemen, Nigeria and Syria must now fly to kill Seyyed Ali Khomeini's soldiers! The time for beating and fleeing was over when Khomeini's soldiers were martyred in Shalamcheh and Khorramshahr!

Khamenei's soldiers are fighting in Khantouman, Quneitra and Halab, and according to you, they are pulverizing the cost of creating ISIL by 7 trillion dollars and they will be martyred which is closest to the "first qibla"! and how near is the final victory! These soldiers were in Khomeini's cradle, who, with empty hands, dismantled the whole new order of the world. What do you do with the soldiers inside Khamenei's cradle?

He and his plane and his dynasty were thrown in the sky! ... The souls of Lincoln and George Washington will not be shaken in the grave for years to come when the four-star Petraeus read the message of one of the same soldiers, Khamenei, in which it was written:

"I, Qasim Soleimani, formulate Iranian policies in Iraq, Lebanon, Syria, Gaza and Afghanistan!"

God looked at Khamenei, Just as Muhammad (peace be upon him) was spotted in a cave with a spider web! For centuries, history has been waiting for these soldiers! ... What happened to Saddam's three-day victory with the United States? ... How many hours did he not take Kuwait without the United States? ... Where did he go, from the Nile to the Euphrates Rice? On the Huntington Civilizations? Kissinger Shiite Hall, the end of the world Fukuyama? They did not drink water from the Nile to the Euphrates, from Herat and Panj Shir and Sanaa to Latakia and Samarra, except with the permission of Qasem Soleimani, that soldier in Khomeini's cradle!

But there is a point! ... Is it that before the martyrdom of this noble man, who knew him? Which of us had heard the name of "Martyr Haj Qasim Soleimani"? At the height of anonymity and sincerity in the deserts, he was doing military work! ... Today, everywhere is filled with the photo of the supreme martyr "Martyr Haj Qasem Soleimani" ... All the people took the picture of this international leader of the resistance, the martyr "Martyr Haj Qasem Soleimani" and appreciated him and his achievement! ... The enemies of Islam from Riyadh to Tel Aviv interviewed, it just might become the corners of their mind that Iran can now turn a news interview site into a "corpse" with a missile operation similar to the "Martyr Haj Qassem Soleimani" missile operation. Do you know how much it's worth? ... Do you think that if this deterrent power did not exist, our situation would be like this now? ... Who gave it to the people of Iran? Iranian Revolutionary Guards Basij, anonymous and unassuming called "Haj Hassan Tehrani Moghaddam and martyr Haj Qassem Soleimani," they said, only poor people as they work their facilities! Who knew the historical martyrs, Ali Mohammadi, Ahmadi Roshan, Rezaei, etc., before their martyrdom, who introduced the most sophisticated nuclear strategic technologies to their country! When did Shahid Shahriari know him before his martyrdom? That made a civilization the owner of "twenty percent fuel" technology!

Which of us knew about this? We have so many of these people one of whom,

God Almighty, showcased and Haj Qasem Soleimani became the pride of Islam and Iran! The person about whom the French Le Monde said: " Qasem Soleimani is a Che Guevara for Iranians. Or as the German Der Spiegel stated in a definition that: Qassem Soleimani is not one of those commanders who sits at home while his forces are on the front line. In another definition it is stated that Qassem Soleimani is the "strongest man in the Middle East."

In fact, what Qasim Soleimani is fighting for is an Islamic republic ... but when he arrives, he says to himself: "I am a child of the countryside, a nomad and a poor man." We have so many of these saints of God who are at the peak of knowledge, faith, asceticism and piety that the religion of God helps and God loves them . There are so many anonymous people working sincerely for the country, you and I, my soul do not know that when they became martyrs and God bought them. Later people will understand their names! There are so many of these people! ... The reason is that this system and revolution, despite the existence of all these enemies in the East and the West of the world, all these conspiracies and betrayals from within, are resisting and resisting.and the reason that it makes the world proud for the disbelievers and makes the hearts of the believers and the oppressed of the world strong and strong is the existence of this person.These martyrs who are anonymous on earth and strangers to people! But the stars are the heavens and the owners

Among the believers are men who have faithfully fulfilled their covenant with God. Some of them have been martyred.and some of

them waited in (the same) and did not (ever change their opinion) ...(Surah Al-Ahzab/ verse 23)

It is customary for a great man or a government official to wear a saffron and remember to place a wreath on his desk and chair. Surprisingly, no matter how much we look, we will not find the office of Sardar Soleimani. We can't find his table and chair. God, where should we take our bunch of flowers? Where do we put it?

Friends; Do you have any pictures of the leader sitting at the table? You have no picture of Sardar Soleimani waiting for people behind his desk. To take our herds there. Yes, we remember that his main place of work was behind the embankments and his office was a dungeon filled with several kinds of dirt. Before doing anything, pay attention to the fact that Shahid Soleimani never sat at the table and ordered! The command did not attack and did not resist, and after that it sat behind the front of the heater or under the air conditioner! It was always in the middle of the story ... let's learn a little ... Hearts are burning with a bunch of flowers who wanted to sit on Haj Qasim's chair, but could not, but their perfume was taken away from the world. O man, dear heart, the greatness of our honor and pride is behind your embankment and trench. "Martyr Soleimani" was one of the few high-ranking commanders of the IRGC who maintained his high position in the hearts of the Iranian people during these two decades. And remained free from political and economic pollution, etc.

Therefore, his martyrdom is very heartbreaking for the public ... What did Qasem Soleimani do that others did not have? How did he become the beloved of millions without appearances? The answer was in things he did not know. In our time, Soleimani did not have corruption. Soleimani was not ambitious. Soleimani did not flatter. Soleimani did not have arrogance. Soleimani did not love position at all. Soleimani had no interest in the mortal world. Soleimani was not hypocritical that if he had, he would not have seen the girl without hijab and with hijab in both girls of this land. Soleimani was not an earthling who became heavenly; He was not a language, he was mature and brave. He was a symbol of a 5,000-year-old country, a 2,500-year-old civilization, and a 1,440-year-old oppressed. During treachery era, Soleimani lived as a "man" and left as a "man". If the politicians of a country had a "man" like him, they would not be so divided. Sardar Soleimani remained a "patriotic soldier" and left as a "patriotic soldier". If a "soldier" like him had been in the Iranian economic community, the situation would have been better than it is today. Learn from him how to live and how to go ...

Description of the leadership of Martyr Qassem Soleimani ...

"Heaven; the reward is a deal with God"

إِنَّ اللَّهَ اشْتَرَىٰ مِنَ الْمُؤْمِنِينَ أَنفُسَهُمْ وَأَمْوَالَهُمْ بِأَنَّ لَهُمُ الْجَنَّةَ يُقَاتِلُونَ فِي سَبِيلِ اللَّهِ فَيَقْتُلُونَ
وَيُقْتَلُونَ

What exists in the face of striving in the way of God, and which the Almighty God has placed in the way of sacrificing life and property in the way, is the goodness and pleasure of God. The things that are in our hands - what a verbal thanks to us, what a thank you for our actions, what a sign, what degrees we give. There are things that can be mentioned according to the material calculations of the world, but they cannot be mentioned according to the spiritual and divine calculations ...

- Receive the Zulfiqar badge

On March 10, 2017, Imam Khamenei awarded the Zulfiqar badge, the highest military badge in Iran, to General Sardar Soleimani. According to the regulations for awarding military badges of the Republic of Iran, this badge is given to high-ranking commanders and heads of high-ranking staffs in the Armed Forces, so that their measures can lead to the planning and conduct of operations. May God Almighty reward and favor them and establish their life with happiness, and their end with martyrdom, of course not now. The Islamic Republic has been working with them for years. But in the end, if God wills, it will be martyrdom. Congratulations. Statements of Imam Khamenei at the ceremony of awarding the Zulfiqar Medal to the martyr Sardar Haj Qasim Soleimani ...

Some friends may not know it, but the enemies know full well that he, with the help of the nations of the region, was able to thwart all the illegitimate plans of the United States in West Asia.

The US plan for Palestine was to keep them so weak that they could not resist, but he filled the hands of the Palestinians. He did what they could to resist. The Palestinian brothers have repeatedly testified to this. In the meetings we had with the authorities, Hajj Qasim sat in a corner that could not be seen. He had to search to find him. The US map in Syria, Iraq, Lebanon was thwarted with the help of this martyr ...

I bow to the great work and the resurrection that Sardar Soleimani did.

You saw this funeral of the Iranian corpses and expulsions and those great expulsions of the country of Iraq, what did they do with this torn body ... His martyrdom showed that the revolution was alive to the whole world. His martyrdom was the reward of his unceasing efforts all these years. With his departure, his work and his way will not be stopped and stopped by the power of God, but hard revenge awaits the criminals who put their filthy hands in his blood and the other martyrs of last night

The one who brought America to its knees

Leader of the Revolution: Hajj Qasim Soleimani, with the help of the nations of the region or with the help he gave to the nations of the region, was able to thwart all the illegitimate plans of the United

States in the region of West Asia. This man was able to stand up to all the maps that were prepared with a series of things (such as money, large American propaganda organizations, American diplomatic skills, American-style coercion against the world). Neutralize the maps in this region of West Asia ... December 7, 2009

- Description of the Leader of the Revolution from Sardar Shahid Qassem Soleimani

The US plan in Iraq, Syria and Lebanon was thwarted with the help of this dear martyr. Americans like Iraq as a step-by-step regime. There is a point full of oil and they want to do anything like that milking cow, but the authority stood against it. And Hajj Qasim helped all of them as a consultant

Today the hand of Lebanon and the eyes of Lebanon are Hezbollah (The party of God) And the role of our dear martyr in this case is a privileged and worthy role. We thank him (Sardar Soleimani) from the bottom of our hearts for his holy existence. Some wanted to pretend that the revolution in Iran was dead and over. But his martyrdom showed that the revolution had taken place. The enemies felt humble in the face of the greatness of the Iranian nation ... the enemy who tries to introduce that great jihadist as a terrorist and this leader who fights terrorism, a terrorist. The Iranian nation struck in their mouths

- "Special" sentences of revolutionary leaders in prayer on the body of "Soleimani"

The Supreme Leader of the Revolution used special expressions for the martyr Soleimani in prayer ... The Supreme Leader of the Revolution used the following phrase in this prayer:

اللهم أدخلهم برحمتك برضوانك، فإنك توفيتهم مخطئين بدمائهم فى سبيل رضاك مستشهدين بين أيديهم، مخلصين فى ذلك لوجهك الكريم

May the Lord, by their mercy, enter Paradise. You took their souls while they were immersed in blood and martyred, and they were sincerely towards you..... May God raise their ranks and unite them with Muhammad and his pure family, and join us with them, and establish martyrdom on our way one day. Praise be to the God who made the martyrs of the path great.

اللهم الطاهرين وألحقنا بهم وارزقنا الشهادة فى سبيلك يا مولاي، الحمد لله الذى أكرم المستشهدين فى سبيله، الحمد لله الذى رزقنا الشهادة فى سبيله، الحمد لله الذى رزقنا الجهاد فى سبيل الإسلام

Why did people like Qassem Soleimani? ...

Qasim Soleimani, whom Zin should be called a martyr, was a special person in the Islamic Republic. The news of his martyrdom was like an earthquake that shook Iran and the world. Whenever the most popular figures in Iran were polled, the name of Qasem Soleimani

was among the first two or three people. This popularity seems a bit strange to a military.

You can see this popularity in cyberspace as well. Some people have left behind him who may have had serious criticisms of the performance of the officials of the Islamic Republic, but they liked Qasim Soleimani. Of course, it is worth mentioning that Instagram, in spite of all the slogans of freedom of expression that are chanted, removes the posts related to the martyrdom of Sardar Ghasem Soleimani.

Why do people like Martyr Soleimani? The answer to this question is simple. He did his job well. Qasem Soleimani was the commander of the Holy Army of Iran. The task of the Holy Sepulcher is to repel Iran and to oppose foreign conspiracies against the country. He did his job well.

People have only seen slogans during these years, but Soleimani showed well how to turn the profession into action. The story of ISIL is a good example of this. ISIS had come to eradicate Iran and the Shiites. The Iranian commander, however, stood firmly in front of them and did not allow the savage ISIS terrorists to scratch the beautiful cat of Iran. Soleimani even cut off their hands from Iraq and Syria. People saw his efforts and loved him. Another point is that Sardar Soleimani did not enter the ordinary political games of Iran. He did not contaminate his military uniform with politics

And because of this, he was popular with all political factions in Iran. Read the statements of two currents of reformists, fundamentalists, etc. about Qasem Soleimani to understand the secret of this popularity.

Qasim Soleimani reminded all those who have responsibilities in the country, in any outfit and position, how to be loved by the people. Soleimani was one of those people who brought self-sacrifice and self-sacrifice to the 90s during the front and the beginning of the revolution. A character that has been forgotten and set aside. Sardar Qasem Soleimani had fallen in love with many people. Today, Iran has a black-clad friend for Sardar, who seems to have no one to erase his place in the hearts of Iranians for years. In the end, greetings to those who fight at night and return in shroud at dawn. "

- Martyr Haj Qasem Soleimani, Minister of the Ahl al-Bayt

On Thursday night, you started the pilgrimage from Syria to Hazrat Zainab (peace be upon him) First, you went to Kazemin in Iraq for a pilgrimage. It did not take long for you to go to Karbala proudly and with a torn body to meet Sayyid al-Shuhada (as). Then, in order to show your devotion and confirm your being a Shiite, you went to Najaf and visited the Amir al-Mu'minin (pbuh) at the hands of the pious. I know you loved Samra very much, but when you noticed that the Iranians were coming to visit you, you came to your homeland at night. First in Iran, you went to Ahvaz to visit the bloody soils of Khuzestan. Everyone knows your love and affection for Imam Reza

(as) and everyone already knew that you go to Mashhad to thank ... But for the pilgrimage of the leader and to see the family and the greatness of your friends, you came to Tehran for the pilgrimage of the leader and then with all your love you went to Qom and the pilgrimage of Majesty Masoumeh (peace be upon him). And in the end, you were embraced by Kerman for the pilgrimage of your dear father and mother and fellow citizens And finally, you were buried next to your companion with your body torn to pieces, so that you could reach eternal peace in the purgatory of your purgatory with the Imams and martyrs ...

Dear Hajj Qasim, do not forget all the aspirants of martyrdom, all your friends and all your friends all over the world

An overview of the life of Martyr Sardar Qassem Soleimani ...

General Martyr Ghasem Soleimani was born in 1335 in the mountainous and remote village of "Qanat Malek" in the city of "Rabar" in the province of Kerman ... At the age of 12, after graduating from elementary school, he left his hometown and began working as a construction worker in Kerman. And some time later, he was employed as a contractor in the Water Organization, and in the same years, he also started his revolutionary activities in Kerman ... After the revolution, he first went to Mahabad to fight with Komala and Democrats

After that, he became a member of the Islamic Revolutionary Guard Corps. With the beginning of the imposed war, Qasem Soleimani trains several battalions of Kerman troops. And sends to the southern fronts, and shortly afterwards, he is sent to Susangard at the head of a group to prevent the regime from advancing backwards on the Maliki front. Soleimani was appointed as the commander of the 41st Sarollah Division in 1981 by the order of Mohsen Rezaei, the commander of the Revolutionary Guards Corps. Shortly afterwards, in the winter of 1961, he was promoted to the 41st Division of Sarollah, which included forces from Kerman, Sistan and Baluchestan, and Hormozgan

During holy war, the army under his command, including large operations, Valfajr 8, Karbala 4, Karbala 5 and single Shalamcheh Vmrsad's presence ... the army of 41 divisions udhab to the line

breaker Corps filed in years Holy defense, whose forces play an important role in large-scale operations such as Wal-Fajr 8, Karbala 5, etc.

- Arvandkenar

In 1985, he was the commander of 8 diving battalions in Operation Valfajr. These operations eventually led to the victory of Faw with the courage of these divers. The narrative of his mood and atmosphere in this operation is still readable: Remember, it was a night or two before the operation. Haj Qasim has mobilized the operating forces and operational battalions for the last farewell;

He begins his speech with the words of Mawla ... "... Lend the bowl of your head to God, nail it to the ground, look at the last ranks of the enemy army, run away from the enemy and run away from the enemy. And know that victory is from God Almighty.. "During the operation, the mother of Fatemeh Al-Zahra was not mentioned; He prostrates and prays again and again. During the operation, he also pays attention to the wounded and the bodies of the martyrs ... Dear Ahmad! Order to the friends of the cooperative to take care of the martyrs. The situation should not change and these children should stay in the enemy area! Tell medical friends to take good care of the injured

Shalamcheh

In 1986, during Operation Karbala 5, he was the commander of the Sarollah Division and also the diving battalion. Yet another victory.

In the absence of martyred commanders such as Bagheri, Hemmat, Bakri, Mutawasliyan and many others, the hopeful eyes of the fronts are like Ghasem Soleimani. He was injured several times during these years and was martyred, but that was something else..

- Kerman

When the war was over, Qasim returned to Kerman. Like some others, he could take Putin off and go to the back of the table. Soleimani, however, did not sit down. He had now returned to Kerman as the commander of Sarullah's army. At that time, miscreants and smugglers were very active in the eastern borders and took security from cities and border areas. Hajj Qasim devised a plan to confront these groups so that security could return to the region. One of the parts of this plan was the multiplicity of Basij resistance forces in insecure areas and a program was designed for the leaders of the offending groups. At the beginning of this plan, the leaders of the miscreants and the armed smugglers gathered in a meeting and were secured by the country and with the representation of Qasim Soleimani. These people, in return for the security guarantee, should take an oath of allegiance and inform the border guards in case of any observation. This incident caused a large part of the problems of the eastern borders to be solved and to be created in provinces such as the mercy of relative security ..

- Tehran

If for many of Qassem Soleimani's comrades-in-arms, the war ended in the summer of 1967, it did not mark the beginning of a new era in the field. With the end of the crisis in the southeast, the Taliban gained power in Afghanistan, and in addition to borders, insecurity from the east again to the land. Sardar Soleimani, who had a successful experience in controlling the eastern borders and fighting the miscreants in his record, was the best option to put an end to the Taliban. He was in Iran and Afghanistan due to his presence in the Eastern borders and his history of fighting narcotics and drug gangs.

In 1379 AH, Sardar Qasem Soleimani was appointed by Ayatollah Khamenei as the Supreme Leader to command the Holy Corps. Based on the transferred reports, the Holy Corps of the Revolutionary Guards was formed to increase the foreign activity of Iran. Soleimani became the second commander of the Holy Army of Iran after Ahmad Vahidi. Martyr Ghasem Soleimani played a key role in the Middle East, especially in the unrest known as the Islamic Spring (Arab Spring). Martyr Soleimani was fighting drug trafficking gangs on the borders of Iran and Afghanistan before being appointed commander of the Quds Force.

Some politicians believe that the appointment of Sardar Soleimani as commander of the Holy Sepulcher coincided with the rise of the Taliban. Rather, he was chosen because he was a native of a mountainous region called Rabor in Kerman. And with the political

system, the tribal communities in general and with the Afghan society in particular became particularly familiar. Martyr Soleimani, with his experience of the civil war in Kurdistan, was also considered a suitable option. Because it was supposed to operate in post-Taliban Afghanistan, which was embroiled in a civil war.

It is worth mentioning that during the eight years of the imposed war and the fight against drug gangs in the border areas of Iran and Afghanistan, Shahid Soleimani became the commander of the IRGC before his appointment. In this connection, Mir Dagan, the former head of the Mossad, had said about Sardar Soleimani: he has relations with every corner of the system. He is the one I call politically intelligent. • How the Iranian threat against Bush was eliminated

The role of Sardar Soleimani in the management of the region began in 1997, when he became the commander of the Holy Corps of the Islamic Revolutionary Guard Corps. A force whose goal was to preserve the achievements of the Islamic Revolution and gradually became one of the most effective military institutions in Iran, will not be able to play a role in the army. Because of the role it played in the face of US military aggression and the Zionist regime against Iran, it gradually became a major force in the region. Perhaps the culmination of this movement dates back to the time when, in the wake of 9/11, US forces launched a full-scale campaign in the Middle East.

Afghanistan was occupied first, then Iraq, and many believed that Iran would be the next option for a military strike. In the meantime, the Holy Army was able to completely end this threat by creating a strategic depth in the region ... "Putting an end to this threat was the first important achievement."

- Beirut

In the summer of 1985, the Zionist regime invaded Lebanon. Hajj Qasim, as the commander of the Holy Force, soon reached Lebanon, where he was in charge of the operations of the Resistance Front. He spent very hard days with Imad Mughniyeh and Seyyed Hassan Nasrallah, but in the end he managed to defeat Israel and the United States again. This defeat caused the fame of Hajj Qasim to spread in the world and the enemies to resent him. Despite this, Qassem Soleimani has not been mentioned in the media yet. Even the images of Hajj Qasim were very limited, and with the exception of a few,

most of his other voices were not present. Israel and the United States, however, have been pursuing the assassination of Hajj Qasim ever since. Two years after this war, Imad Mughniyeh was martyred in a terrorist explosion. An event that was very painful for Hajj Qasim. One of the highlights of Sardar Soleimani's command over the Quds Force is the strengthening of Hezbollah in Lebanon.

And it was the Palestinian militant groups that were objectively represented in numerous episodes, including the 33-day war between Hezbollah in Lebanon and the Zionist regime, and the victory of the Palestinian militants on the 1st and 22nd day of the war. In fact, Qasim Soleimani was able to follow the strategy of the Islamic Republic, that is, to help the militant groups against Israel, and to take other steps in this direction every day ...

The peak of this board also dates back to 2006. Qasem Soleimani was the direct commander of the board in this board. And at the height of the Zionist regime's airstrikes, he was forced to return to Iran via Syria through a meeting with the Supreme Leader of the Islamic Revolution and other officials.

After returning Suleimani Lebanon, the battle in favor of the Lebanese Hezbollah returned the unit armored Zionist regime of tank Merkava in southern Lebanon by missiles Kornet Russian arsenals of Syria in their possession had been grounded . This movement was repeated once again in Palestine and the Gaza Strip and was able to

fill their empty hands in the face of the all-inclusive confrontation with the Zionist regime ...

- Gaza

Israel, which had been defeated by Lebanon and Hezbollah and the resistance forces, was thinking of revenge and war again. That is why he attacked Gaza in the summer of 2008.

The war, which lasted 22 days and later turned out to have been carried out by Hajj Qasim Baz with the help of the Resistance Front. In this war, Fajr 5 missiles were used for the first time against Israel, and the cities of occupied Palestine were hit. In 1393, in a message to Palestinian resistance commander Haj Qassem spoke on the corner of the 22-day realities of war: "... we are in the presence of Almighty God, the covenant will terminate with the martyrs who stick to their promises and not changed, as we were and are Let us fulfill our religious duty to support the resistance; we emphasize that we will continue to insist on the victory of the resistance and raise it until victory .

- Axis of Resistance

Qasem Soleimani, by the decree of Ayatollah Khamenei, Commander-in-Chief of the Armed Forces, was promoted to the rank of Major General in 2010. But still in public opinion, everyone calls him "Hajj Qasim". But that was not the end of the story. With new conspiracy West and financial support to countries like Saudi Arabia, the formation of terrorist groups takfiri including ISIL and ANF in the

lead, Qasem Soleimani new mission and that is to deal with this threat in Iraq and Syria. Martyr Soleimani, with the help of the Hamedani and pious martyrs, formed the "People's Rally" in Iraq and the "People's Basij" (Patriotic Defense Forces) in Syria.

And with their help and the guidance and advice of the Holy Sepah force, the terrorists in these two countries became almost united during 6 years.

In fact, it should be said that he and his forces, who went to the two countries at the official request of the Syrian and Iraqi governments, prevented the fall of Damascus and Baghdad and he also played a key role in accompanying Russia and Putin on a trip to Moscow to enter Syria. In the darkest moments of the ISIL invasion of Iraq and when the officials of this country were begging for help from the United States and Iran, only one person would be able to provide a promising path to confront ISIS at the gates of Baghdad. Qassem Soleimani, commander of the Quds Force of Iran, in direct coordination with the Commander-in-Chief of Imam Khamenei's forces, authorized a large-scale military aid to Iraq to fight ISIS. Iranian fighters, in coordination with the Iraqi government, bombed ISIS columns near Samarra And by slowing down ISIL, they allowed the formation of a defensive circle around Baghdad to prevent the infiltration of Takfiri terrorists. In the next phase, military aid flowed to the area. Finally, the first step in pushing back ISIL with a joint operation by Kurdish forces and the Iraqi army in the city of Amerli was liberated. It did not take off against ISIS in Syria and Iraq, and for nearly four more years it

lasted until Abu Kamal, the first city to be captured by ISIS in Syria, was released during an operation under the command of Sardar Qasim Soleimani.

- A masterpiece of the Quds Force in the face of terrorist groups

In the meantime, the whole of Iran with the terrorist groups in Iraq and Syria is the most important mastermind of Qasem Soleimani. Widespread unrest in Syria began in 2011 in the Deraa region, which quickly spread to foreign countries, including the United Arab Emirates and the United States, with foreign intervention. A full-fledged airlift from Eastern European countries to Russia, which had been bought with money from Qatar, Saudi Arabia and the United Arab Emirates, to Turkey, Jordan and Lebanon.

When the Syrian regime was collapsing and Damascus, the capital of this country, was on the verge of collapse, it was Qasim Soleimani who came to the aid of this country. Initially, it was the Lebanese Hezbollah that showed its military prowess to its Western allies in the operation to liberate the city of Qusair. And in continuation, the Iranian advisers undertook the task of rearranging and reviving the life of the Syrian army. As hard as it was, the mobilization of forces expanded in two ways. The formation of the ISIS terrorist group from the remnants of the Iraqi branch of al-Qaeda and the rapid capture of different areas in Syria and Iraq were among the culmination of this failure. ISIL was the most complex and widespread terrorist group to take advantage of global capabilities. A group of soldiers of 80

different nationalities who were going to form a world government. It was here that the presence of Ghasem Soleimani became the most important brand in Iran. The first point of Iranian resistance was in the Jalalabad region of Diyala province in Iraq. Gradually, the rest of Iraq, such as Tikrit, Samarra, Fallujah, and Anbar, were liberated. In Syria, the presence of Russian aerospace forces was able to shift air superiority to the axis of resistance. On the other hand, fighters from Iraq and Afghanistan also came to the aid of the Syrian army, Hezbollah forces and Syrian forces. The advance of the forces of the terrorist groups not only stopped but also reached its end point in less than three years in Syria and Iraq ... With this performance, Sardar Soleimani did not become incredibly popular not only outside Iran but also inside Iran, regardless of any political orientation. A three-stage poll conducted by the Iran Bridge Institute in 2019 showed that Sardar Ghasem Soleimani is the most popular political figure in Iran; His popularity was well known in the mourning of all walks of life of the Iranian people at the time of the news of his martyrdom. After that, the young commander of the 41st Sarollah Corps was well placed among the important commanders of the war, and now it was the turn of other operations. Consulting in the defense of Yemen is another honor of the martyr Qasim Soleimani.

- Frequent threats of assassination and sanctions by US officials

Sardar Soleimani is constantly threatened with terror by US officials and the Zionist regime.

In the last year, the Ministry of Foreign Affairs Sardar Soleimani America accuses Syria to cooperate with security forces during the protests and crackdown on opponents of Bashar al-Assad in the country and in charge of the Treasury America boycotted the martyr commander. Following the repeated repetition of Qassem Soleimani's name in the world media, the French news agency published a news item that revealed the possibility of his assassination by the US government. According to the former commander of the Army America's Jack Keane hearing in Congress that America was referring to the assassination of Iranian officials, especially senior Iranian Revolutionary Guards Islamic Republic of Iran, said, 'Why not kill them? They have killed nearly a thousand Americans, so why not deliberately terrorize them? I am not saying that we should take military action, I suggest that we carry out secret operations. We have to put a lot of pressure on them.

Ruel Mark Grich, one of the Institute's experts in defense of democracy, also stated:

They do not have as much logic as we do, I do not think you can intimidate them without killing one of them. Qasem Soleimani travels a lot, go and arrest him or kill him! According to the French news agency, in the continuation of this statement, some American representatives announced We do not consider it unreasonable to take any action against Iran, but they refused to agree with Jack Kane. •
Martyrdom of Sardar Qassem Soleimani

The implacable enemies with courage and strength Gen. Qassem Soleimani, the swing did not Drbamdad Friday, Persian date Dey 13 1398 Solar missile attack helicopters, US 2 vehicle carrying Brigadier General Qasem Soleimani, commander of the Qods Force and Abvmhdy al-Mohandes Vice mobilize the people of Iraq and some members Alhshd Shaabi in They were martyred around Baghdad airport.

In response to the threat of terror from US officials, Sardar Soleimani has always said: "This is not a threat, it is an enthusiastic help." In response to people who think we are threatened by intimidation, we say, "May God grant martyrdom in your own way to the enemies of your religion."

The Islamic Revolutionary Guard Corps (IRGC) has issued a statement confirming the news of the martyrdom of Major General Qassem Soleimani, Commander of the Holy Revolutionary Guard Corps. The Revolutionary Guards Corps has announced in its announcement: The glorious commander of Islam, Haj Qasem Soleimani, was martyred today in the attack of American helicopters after a lifetime of struggle.

Let Baba gather this Hajj Qasim ...

It is spreading all over the world ...All the alleys behind the alleys of the cities of Iran ... from Dahiye Beirut to Rif..Damascus, from the slums of Kashmir and Punjab and Delhi, to the streets of Baghdad and Kazemin, Najaf, Karba and Sanaa, even in the United States, Europe and Australia..All and all volcanoes are angry with America ...

He turned his head and fell asleep from all the negligence of the world, disrupted the order of the world, embarrassed everyone with his calculations, books, deeds and deeds.He has taken a flame in his

hand, fallen into the subversion of the consciences of the people of the world ... he does not know left and right, reformists and fundamentalists, Iranians and non-Iranians, Muslims and non-Muslims. Is he scribbling everything, is this 63-year-old leader standing in front of us and our international ?! "

Now, there is only one person like Ibrahim Hadi, Haj Ibrahim Hemmat, Ahmad Kazemi, Sayyad Shirazi and all the martyrs ... What should I look like?

"Of all of them ..."

It makes one doubt that the owner of Zakia is his own soul!? ...

With his murder, the scroll of the oppressors will be complicated?! ...

The countdown to the annihilation of the United States and Israel has just begun, and it is clear that the stigma of his longing will soon burn the forehead of the arrogant world.

Now, who can witness the martyrdom of Hajj Qasim, spread all over the world? They want to extinguish the light of God with their mouths, but God is the perfect giver of light, even though the disbelievers are not pleased.(Sura Tawbah / verse 3)

One blood and all these blessings ...

A corner of the achievements of Qassem Soleimani's martyrdom: Commander Qassem Soleimani, in response to Trump's threat, said, "I was alone enough to confront you ..." Trump does not understand the

meaning of this word! The martyrdom of Sardar Soleimani will cause the following:

1. It will force the United States to leave Iraq.
2. It united the Iraqi people and eliminated the effects of the unrest.
- 3- Restore security to the cities of Atbat.
- 4- Destroyed the anti-Iranian conspiracy in Iraq.
5. To return the political alliance to Iran and to neutralize the results of the planned disturbances of the enemies from the rightful protest of the people.
6. All the wrongs were proved by the negotiations with the United States. Violation of Iraqi sovereignty despite the existence of a security pact (
7. Reaffirmed the need for the highest possible military strength and the need to rely on internal capabilities.
8. The Resistance Front has united the whole region and made the whole region unsafe for the United States and its agents, and the Resistance Front is rigid in planning revenge.
- 9 - and most important achievement is that the blood of the martyr Qasem Soleimani, America's reputation was tarnished by a massive response puppet army missile, especially arrogance, America, Europe and NATO, the Zionist regime, Canada, Australia, reactionary governments Arabic vanished. Once upon a time, Americans in every

country, and at every time, with every tool they operated on, they would turn right and say, "We are here again."

Little by little, Hajj Qasim and his comrades tarnished this authority in the region; Lebanon, Syria, Iraq, Yemen and now the headquarters of America's largest rocket, while al-Assad in revenge for the martyrdom of Haj Qassem Soleimani, the Iranian missiles and rockets did not find opportunity to say ouch without a single interception in the same Alajsd sat down.

Maybe some do not know, but in this case more important than the loss of a few people, how much American equipment are destroyed, how many fighters they explode, above all, to tarnish the reputation of the Americans with bluster He said that no one dared to respond to my support. However, Ayn al-Assad was the first target. But Telavi and Haifa are begging the Americans not to answer because they are in the range of resistance missiles ... And the history of the Islamic

Revolution of Iran was divided into two parts before the missile response and after the Sepah missile response. It is fair to say that the revenge of the strategy and the revenge of the Resistance Front still remain. It is necessary to mention that for each of the above results, several billion dollars of other possibilities and so on were necessary. Dealing with a Blessed God. Dealing with God Even if you say "Allah bless you" a thousand times, there is nothing but the humiliation of this world and the hereafter, and "the real meaning of dealing with God is that God bless you and God bless you."

The brave and unassuming martyr Soleimani ...

When the news of Malik Ashtar's martyrdom reached Amir al-Mu'minin, he was very sad and depressed and cried and went to the pulpit and said: "We are from God, and to Him we turn, and to Him is the praise of the God who is the Lord of the worlds." O God, I will tell you about his misfortune, because his death is one of the mourning days. May God have mercy on May God have mercy on Malik, who fulfilled his promise, and completed his term, and met his Lord, Although we have promised to be patient in every calamity after the calamity of the Messenger of God, because it was the greatest calamity..... May God reward Hussein and how Malik, if he was a mountain, he would be a big mountain, and if he was a rock, he would be a hard rock. Be aware, God, I swear by your death, Malik, it destroys the world and makes the world happy. That pleases the

people of Sham and Iraq. He will destroy the man like Malik must
Recent cry cry, do no helper like Malik can be seen, whether such
person is Malik, whether women with infants on the rise as Malik gets
".

The news of the martyrdom of Hajj Qasim Soleimani and Mohandes
Abolmahdi by American helicopters in Iraq means that American
leaders and solutions in the region have not responded to it.

Why? Because Iran's land route from Qaemiyah to Abu Kamal has
been opened and Iran's access to the borders of occupied Palestine has
been fully prepared for the transfer of forces and equipment for the
destruction of Israel

Today, if Hajj Qasim and Abu al-Mahdi have achieved their dream,
but have brought the resistance front to a place where it can continue
the battle with new forces ...

Do not worry, friends, if the news of the martyrdom of Malik Ashtar Seyyed Ali reached today, but we know that this front has thousands of Malik and the razor of Seyed Ali's plan. Do not be sad, do not be disappointed, do not be weak. The blood of Hajj Qasim will be the lifeblood of Islam, just as the blood of Hamza Seyyed al-Shuhada brought Islam to life. The blood of Hajj Qasim and dear Abu al-Mahdi will strengthen the hearts of Iranians, Iraqis and millions of people who love the family and adhere to Islam in the way of resistance. Do not be disappointed ...

From now on, the resistance front will act with more authority and motivation against the Americans and the Zionists. Know for sure that the Americans have reached the end of the line and will pay a heavy price. The Americans will no longer be safe anywhere in the Persian Gulf anywhere in the world. Pray that these bloods will provide the ground for the emergence of Hujjat ibn al-Hassan (may God hasten his fate) as soon as possible ...

For a few days, my mind wanders to a special name, a special person whose image never leaves my eyes ... These days, I feel that the wound is falling down, it comes to me unconsciously. When pain comes to me and makes me impatient, it reminds me of the shame and faith of that shameful man. I compare the difference between my life and him when I realize that in the same atmosphere in which I lived, he was also breathing. Under the sun as I walked, he also walked, and on all the nights I slept, he spent his nights fighting and praying in the morning. I am ashamed of myself and I admire him ... Time was the same time and time is the same time But where am I, the neglected sleeper, and where is the martyr Qasim Soleimani who is ill . It is so talkative that I, a black-faced person, do not know what the difference is between me and you, I can talk, but the situation in my heart does not allow me to talk and it just keeps silent. Just a request, put your hand on the rest of us so that we can be a little more respectful of your goodness ... Trump will soon realize what a horrible mistake he has made. And his hand is stained with the blood of someone, It is too early to understand what he has done to himself and the United States.

What were the aims of the assassination of Martyr Soleimani? ...

"Seyyed Hassan Nasrallah" in the special martyrdom ceremony of General Soleimani and Abu Mahdi Al-Mohandes: Why was this crime committed in a completely obvious way? ... In a formal and formal way. That the whole world should see? ... There are two issues. All previous assassination attempts have failed. Some operations have been revealed and some are still in ambiguity ...

It was the last time it was discovered in Kerman; A house had been purchased near the Hosseiniyah and a large amount of explosives was to be planted. And when, according to the custom, Hajj Qasim used to go there every year, it exploded, killing four to five thousand people. For what? In order for Hajj Qasim to be killed ... God protected him and chose this kind of [obvious] martyrdom for him, and he deserved this kind of martyrdom. The second issue of action at this time was the current state of affairs in the region and the defeats and victories and consequences of the current situation that led to the recent developments in Iraq. We are also on the eve of the US election. When we look at this scene, it clarifies the purposes of terror and our responsibility for it.

On the occasion of the martyrdom of General Haj Qasem Soleimani

Their hands were opened stained with blood, murderers

It is endless, but the laughter of the devils

We did not find less scholars in this calamity

There were many Soleimans in this land

Instead of every drop of blood, a hundred flowers bloomed from this garden

When has the world seen such abundances?

He wished to reach the companions of his martyr

He joined Haj Ahmad and Tehranies

The flame was extinguished our anger from this hot

Let the shadows of ignorance come from their heads

Let them know that they will not regret it

There is no fruit in such regrets

Jealousy is that everyone old and young closes

Tie on boots and headbands

Revenge on God is harder than Hojaji

Wow from the clenched fists of the Iranians!

The Quds Liberation Army has left for Quds

Tell this news to the Sufis

Dedication to the patient wives of the martyrs

Dedication to the patient wives of the martyrs, especially the wife of Martyr Soleimani ...Like a beautiful morning running in my life, like

the sun, like the shadow, kind and unassuming. The beginning of our common life was mixed with the smell of war. You came from the front, from the heart of the enemy, from the adventurous nights, the successive explosions, from behind the embankments, you still smelled of gunpowder. The dust from the clothes and hair was not cleaned. I was talking to you, I could see in your eyes the image of your kind spouses being martyred. You said it was a piece of paradise. "How much I loved your wet eyes." The day you came back from the front was the best day in the world for me and the days when you were by my side, the best days of my life, I was happy, you came from the depths of my being. The volume of my imagination and behavior was full of you, you were by my side, my heart burned for you, I was sad for you, I was sad the worries of your legs and your pin hands ...

I would say: Rest for a few days. You laughed and said you were very smart; You want to say after me that "Qasim" was not a good husband. You wash the dishes, you sweep, you buy and you brin. I laughed when I saw how carefully you clean the vegetables. I would say: Tell me the truth, Qasim, are you in charge of the kitchen on the front or commanded !?

You did not say anything yourself, but your friend told me what a worthy commander you were. The closer we got to the end of your vacation days, the more upset I became. I was talking less. I was thinking, I was crying with hatred and my heart was becoming a city of chaos of various thoughts ...

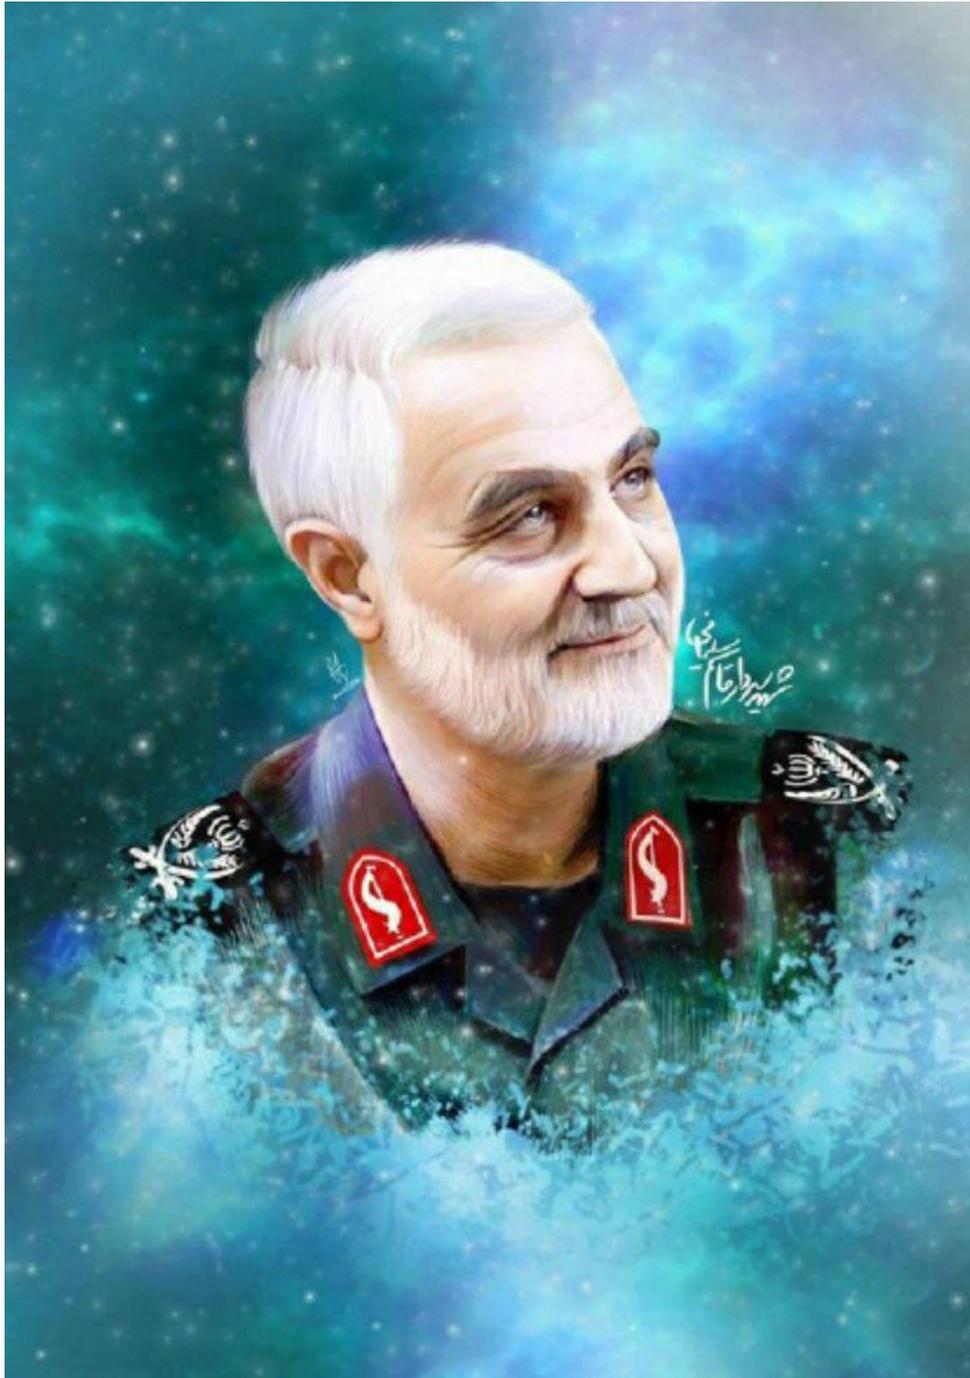

You would tell me the jokes of war, you would make me laugh. But I cried with hatred and stared at an unknown point. The memories of the days before me move in front of my eyes. How happy I felt then. But now that you are going, there is no one in this big world more lonely than me.

You said my bride, you are not really satisfied with my departure, but you do not always say that I am proud to be the wife of a combatant. And I know very well that all my worries are that something bad will happen to you. I would say: If I know that you are taking care of yourself, my heart will calm down. Then, if this war lasts for forty years, I can bear to be away from you.

My white wedding veil was over my head. I looked and wiped my tears with the wings of a tent. I could not hold back my tears. When you reached the corner of the alley, you stopped and said goodbye. You put your hands over your eyes and laughed. I realized that you were saying to wipe away my tears ... When I closed the door, a great sorrow rolled over my head and then into my backyard. As you go, the bird of happiness of our little house also jumps into the cage. The voice of life could no longer be heard from any window ... You went to share your kindness with the fighters of the fronts. The day you left, I could not believe it; Returning to the hands of the people you loved ...

On that cold winter day, when the dirt was being poured on your torn body, I stood in a corner, stunned and stunned, and looked at the

silent coffin. To the bottles of roses that are emptied on our heads and faces, and to the crown of fragrant flowers with black stripes standing in a row for you. You have been by my side for a long time. I could feel the warmth of your being. You were standing and looking at me with a strange feeling. Your eyes were always wet. The last dust that was poured on the tomb, the people who came to say goodbye to you, flocked to me. The women threw themselves into my arms, sympathizing. They offered condolences and congratulated you on your martyrdom. Men in black came up and down ... prayed for health, said goodbye, and rode in cars and buses and left. Eventually I stayed and you and the clear sky above us, which had now come down so low to wash our voices. It was time for me to cry. You stood facing me

You raised your eyebrows, bit your lip and then lowered your head ...I said softly: Qasim Jan, should I not cry too? You rolled your eyes and shook your head. It rained but it was not finished, I did not express the rest. You sat down. The head was still low, very low. You had an agate ring in your hand ... the same ring you brought me with your severed hand. I rubbed the ring on my wet eyes, I remembered our

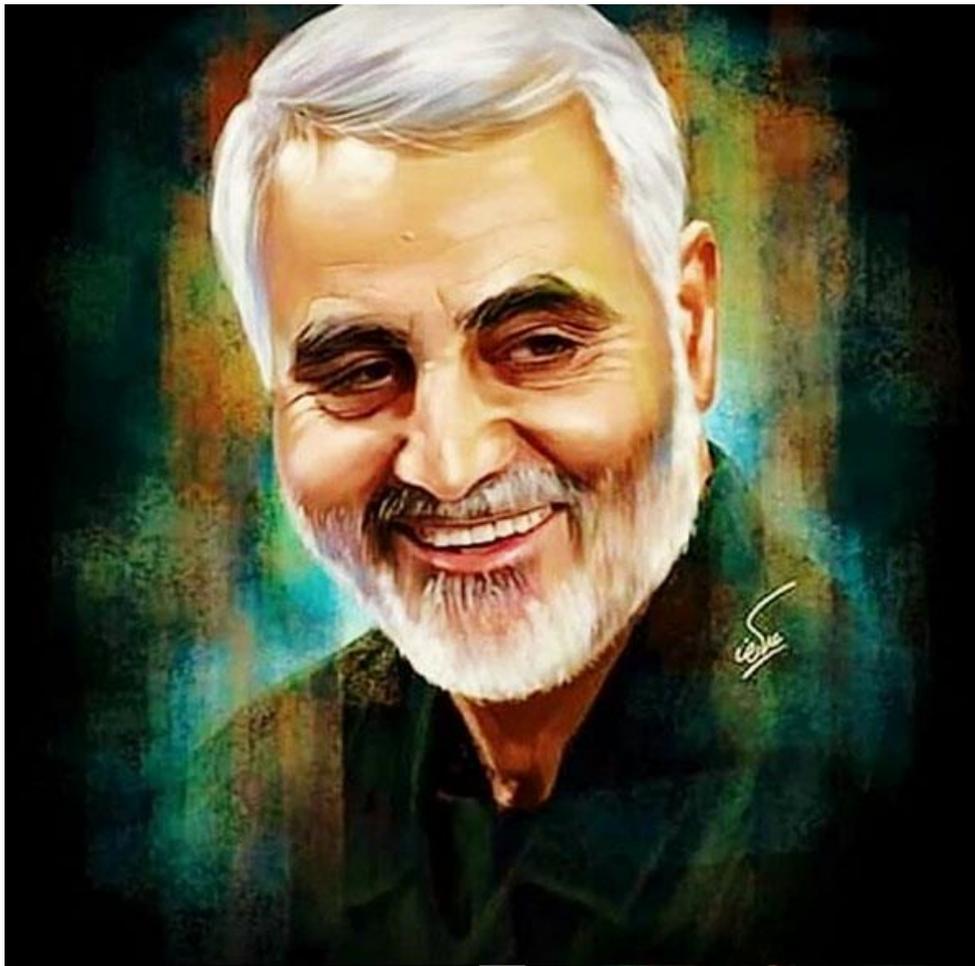

wedding ring ... how much you bothered me. We have trampled all the jewels of the city; Finally, you said: What is the ring for? I want to be your servant like a ring! And you laughed under your breath ... I knew you wanted to do something that you would not buy a gold ring. Finally, at my insistence, you removed an opal ring from a silver shop. With the same hand you wrote on the ground: "O Hussein, martyr" You spoke slowly: Why cry?

I myself chose this path. You know better than anyone else, I wish it was, and then you looked at me with your wet eyes and said: You know very well how much I love you. I love our lives too and I enjoy being with you. How many days is this life of this world? Think about it! We have been living together for several years. We become children, our children grow up ... finally we have to die. In truth, in your heart, you do not want me to be white in front of my God. Your heart wants me to stay and die in a better plant life. Is it more enjoyable to live or to be martyred? You who know me well, if I stay like other people, I can not be happy with these jewels and ornaments and toys of the world .. My eyes were burning, I knew both my eyes had become a bowl of blood. I stared at your white face, which was lost behind a multitude of full-bodied virtues and blackness. I said: Qasim, my dear Qasim! I do not know what to do. I'm afraid to get lost. Your head was still down ... You laughed and said: You know the way very well ... You've grown up. Slowly and as you rise, place your hand on your knees, as if your knees were always clapping.

You stared at my face ... You smiled and said: I'm going. But you are all those who show the way to others after me ... A hand came down on my shoulders: My dear ... Get up, go, get enough. See, they are all gone. I looked. Where you stood, you were not. But I could still smell your body. I was full of you. My head was confused. The sky was over. A strange burn is coming. The tomb was not empty ... men and women, children and teenagers, soldiers and armies lined up to come to the grave ... I remembered the will he said to you Just write on the grave:

There was a heavy silence on the graves, my feet did not move. I fastened my tent over my head. A strange feeling crept into my being. You were enlightened and you ran all over me. The heat of your presence poured into my veins and blood. I could not hear a sound anymore ... Two pairs of wet eyes moved in front of me. My eyes will always be wet after this. I would step on the graves involuntarily and leave. I remembered that I always came to the cemetery of the martyrs with you. Because in each of these graves, there is a person sleeping and it is a sin to put your foot on these people. Then I would jump over the graves with my feet. I said to myself: No one should put their feet on Qasim, and how much I was heartbroken by this thought

Memoirs of Martyr Haj Qasem Soleimani ...

- The condition of General Qassem Soleimani!

I was very young and when I applied to be sent to the front, I was not sent from the city of Rabar. I tampered with my ID card and was sent from the Bardsir Basij in December 1982. I was very criticized in Kerman. In any case, I was sent to the front. They took me to Gilan Gharb for the first time. There was a guard near the city, and we were stationed there. When they dressed, they gave me the smallest number. I shortened it three times.

I was walking in the barracks, when I saw a person who was wearing a Basiji uniform and was wearing a headscarf. He came near me, greeted me and said: How? where are you from? I said: I am from Rabar. He said: Who sent you? I said: I was sent from Bardsir. He said: You are not afraid to be returned. I said: No, I am going to Qasem Soleimani, he is my compatriot. I ask him to order me to stay on the front ... He said: If Qasim Soleimani says come back, will you come back? I said: Qasim Soleimani knows that I am a tribal child and I can work in the front and he does not say he will return. In response, he said: Do you know Qasim Soleimani? I said: Yes. He said: I am Qasim Soleimani and staying in you now has one condition, which is that in the mornings you have a flag in your hand and run away. In response, I said: I accept. When the weapon was delivered, I was given a Kalashnikov assault rifle that was taller than I was. May God have mercy on Martyr Mir Hosseini. He said: Give

them a folding weapon. It was time to deliver Putin. Again does not match the number on my feet, martyr mirhoseini in charge of logistics said: Go National shoes, buy a pair of shoes Tzipi him in charge of logistics (36) and the logistics manager did this and they bought me a pair of national shoes.

- Unpublished speech of Martyr Hamedani

When we went to Syria three or four years ago, we came across a country where the party would not leave its iron walls and steel gates behind. We went to an army that had been punished for expulsion for praying! What happened that the commander of these forces is praying in congregation today behind Hajj Qasim Soleimani? And does he fast in the month of Ramadan? What has happened is that today, when we go to the barracks, the commander of the Guard brings the seal of Karbala to us for prayer. We know that most of the Sunnis are workers. The Basij that we have set up in Syria (about 42 brigades, 138 battalions of 30,000 men who have come to Iran and been trained) are Sunnis. Syria is Iran's strategic depth. Syria is at war instead of us. We did not bring Iranian forces there. The Iranians who went there are advisers.

The martyr brothers who are on the side of a Syrian commander. In Aleppo, a young man with a Major had left when he wanted to leave after three or four months before his family came, the Major General said when this young man intend to go , As if my heart is standing!

This is for the city of Aleppo, which has a population of five million Sunnis. A youth named Hassan has been trained for two and a half years, where today Abu Bakr al-Baghdadi and the Takfiris have paid a million dollars for his head. This has happened in the last two years, while we have only taught him shooting for 12 days. He commanded an army today. Has released 130 villagers. Wherever he wants to attack, before he attacks, terrorists evacuate the area from fear. These are our pride and achievements.

We have left the youth as commanders where people, when they have children, invite them to say the call to prayer and the iqamah in their

child's ear and they put the name of our commander on their children. Very big things have happened there that they consider to be enemies but people do not know us.

While inside, there are whispers that why are we paying for Syria !? The Iranian leader says: We do not spend money at all. • A narration by Haj Qasem Soleimani

It was a bitter day for the commanders. Mohsen Rezaei said: "An explosion took shape in my brain." "I felt like I lost one of my arms; how do we want to continue the war now?" He said anxiously about the future of the war. Martyr Mehdi Zayn al-Din said: "The news was like a mountain on our heads." The continuation of the war was under the question that now we are no longer Hassan, we no longer have the commander of the Karbala base, how do we want to continue the war? Hajj Qasim Soleimani said: "During the war, the martyrdom of Hassan Bagheri was never as heavy as the martyrdom of the children of the front; his martyrdom was not a loss for the war." Taken from the book of meetings in the Fakke

An unpublished memory of Barzani, the Prime Minister of Iraqi Kurdistan!

ISIL had reached the gates of Erbil and feared that the city would soon be occupied. Barzani says: "After the ISIL attack, I contacted the Americans, the Turks, the British, the French and even Saudi Arabia, and all the officials of these countries said that they could not help at the moment." Barzani says that he immediately contacted the Iranian

authorities and told them explicitly that the city was collapsing, "If you can not help, we will evacuate the city. Therefore, the Iranian authorities immediately contacted Qassem Soleimani and said that Hajj Qassem showed his full authority in the fight against ISIS. So I immediately contacted Hajj Qasim and described the situation accurately. Hajj Qasim told me that I was in Erbil the next morning after the morning prayer. I told him it's too late tomorrow, come now. Haji said that Kak Massoud only kept the city tonight ... Barzani continues to say that Asbah Haj Qasim was at Erbil airport and I went to meet him. Haji had come with 50 members of his special forces. They quickly went to the scene of the conflict and reorganized the pre-mortem forces, and in a few hours the sheet returned in our favor . In addition to Iranian weapons, we also received aid. Barzani says Hajj Qasim left several of his troops for military consultations in Erbil and returned to Karbala himself. Barzani says that we later captured an ISIS commander and asked him how it was that you, at the time of the conquest of Erbil, suddenly retreated ... This ISIS captive told us that our infiltrators in Erbil informed us that Qasim Soleimani was in Erbil ... so the spirit of our people was destroyed and we sat behind ...!

- A story of Sardar Soleimani's courage

The commander of the Fatimid unit narrated a memory of the calmness of the leader of Islam, Martyr Haj Qasim Soleimani, against the American fighters: We used to come and go by helicopter to roam the areas under conflict. One of the days when the "Hanaf" region on

the border of Iraq and Syria was liberated from the hands of ISIL, Hajj Qasim wanted to be there, so we went there and settled in the area. The Americans also declared that "until the 55th degree, no one has the right to approach this area." While flying, Haji started to write something down in his notebook. At the same time, American fighters were trying to divert us from our path by seeing our helicopter. Of course, they did not know what character the helicopter was carrying. As I was anxious, I told Haji several times that the fighters were approaching us ... But he calmly continued to write and did not even raise his head to look at them. A few minutes later, we arrived at the area where Sardar Soleimani was at the zero point of the sugar prayer border. We read and came back ...

- Martyr Soleimani and the liberation of the besieged city ...?!

One of the things that the leader said in Friday prayers and which was not covered by any media was the mention of one of Shahid Soleimani's very brave and daring deeds. The leader said who is the one who can enter a city that is surrounded by 360 degrees of enemy (ie complete siege with no escape route) and break the siege by helicopter with the organization of the youth of that city? This leadership statement referred to what Sardar Soleimani did during the siege of the city of "Amerli" by ISIL in Iraq ... When ISIL was at the height of its power and no one was an opponent in Syria and Iraq (what the Syrian and Iraqi armies and other powerful Takfiri groups

like the Al-Nusra Front or the Al-Nusra Front or the Al-Nusra Front)When ISIL invaded Iraq, it took over the whole of Iraq like drinking water. And reached near Baghdad, Karbala, and Erbil.All of Iraq was on the verge of occupying and falling to ISIS.A town called Amerli, inhabited by a minority of Iraqi Shiite Turkmens, was completely besieged by 360-degree ISIL.

Sardar Soleimani, while the city was under complete siege by ISIL, crossed the top of ISIL forces at night and by helicopter in a very dangerous action and entered the city. And organized the defense forces of the city and caused the resistance of the city and prevented the fall and massacre of the people and the Shiites of the city ...An action in which a frightening and dangerous situation was a strange and very daring job and few people dared to do it.Unfortunately, at that time, our media did not warn the people about the great danger of ISIL, nor did they cover this shocking and surprising act of Sardar Soleimani ...

- Do you remember Haj Qasim?

Hajj Ahmad said: Let Hajj Qasim also narrate to his friends an interesting incident that happened these days about the body of a Basiji martyr in Iraq. Hajj Qasim also narrates how a Basij predicts its martyrdom on the front. Using the card and plaque of an Iraqi prisoner, he prepares the ground for his burial in Karbala, and now, years after his disappearance, an Iraqi family has taken his grave address to Karbala. .

- Hajj Qasim night prayer

I have said many times that during the years of friendship with Hajj Qasim, I have never seen the night prayer of Martyr Soleimani interrupted. They were not ordinary night prayers, his night prayers were always with God with lamentations, tears and sorrow. I commute martyr Soleimani I even slept over at their house. Haj Qasim's room was separated from the guest room but I was awakened by his tears and the sound of his cries for prayer ... Where in the world do you know that a military senior commander is a true mystic? In his correspondence, he writes to his forces with camaraderie and intimacy ...

- Memoirs of Martyr Soleimani, from Martyr Sardar Haj Ahmad Kazemi

Ahmad was an extract and a summary of Imam Khomeini's personality in different dimensions ...There was no meeting, no solitude, no formal meeting, no friendly meeting, no family meeting, no travel meeting that he did not remember Bakri and Kharazi and Hemmat And these martyrs.I did not see any prayer for Ahmad to recite and not to cry at the qunut or at the end of the prayer. It saddened everyone to lose Ahmad, but what the friends of the front were happy about with Ahmad and saddened by his departure was that Ahmad was associated with demons.He was an association of purity and honesty. When talking to Ahmad, one subconsciously

reminds one of Kharazi, one reminds one of Hussein, one reminds one of Ahmad's shame, one reminds one of that man full of war. He added: "Either the Lord of the Martyrs, or the Lord of Hemmat, or the Lord of Al-Mahdi, was the language of Ahmad and he would cry later ..." It was a meeting attended by Ahmad Kazemi, Baqer Qalibaf, Qasim Soleimani and all the comrades. I saw that Martyr Kazemi said I was hungry, why they do not give us food, the meeting was also very important, when we went for food, it was a glorious and varied table and it was clear that the army had made excellent preparations for food. This issue is related to the peak of the war, ie between the years 1985-1986. I saw Ahmad Kazemi, who was one of the commanders of the ground forces of the IRGC, sit down and pull a container in front of him. He put a few slices of bread, cheese and vegetables in front of him and ate nothing afterwards. I said, "This is all food. Why don't you eat? Mr. Ahmad said, 'We are not used to these tables, it is better to take care of ourselves and be empty of these formalities. At that time, people were protecting themselves. I came this way. I saw Mr. Rahim that the container was clean and he had not used anything, he said he was in pain, I ate bread and I was full. Then I asked Mr. Rahim why he did not eat anything. He said, "I remember our friends falling in the war my honor does not allow

We said Khorramshahr is under siege, how can we return? They were all tired because forty days after Operation Conquest of Al-Mubin, we had begun Operation Jerusalem. With the help of Martyr Kharazi, Martyr Kazemi was able to carry out the last phase of the liberation

operation in Khorramshahr. They besieged Iraqi forces in Khorramshahr and took 11,000 prisoners and liberated the city. They captured Khorramshahr with two divisions, each with five battalions, that is, three thousand men in front of twenty thousand enemy soldiers, the divisions of 8 Najaf and the commander of Hashim and Ahmad Amin Tahim. And it so happened that in all operations until the end of the war, Martyr Kazemi, without exception, played an active and agreeable role; He was one of the influential people in the liberation of Khorramshahr and this city is forever indebted to
Kazemi's courage.

Haj Qasim, Haj Ahmad, take me ...

In the document "Letter to Ahmad", what does the martyr Haj Sardar Qassem Soleimani say in response to this question: That if he wants to write a letter to his fellow martyr, the conqueror of Khorramshahr, Haj Ahmad Kazemi, he said: "God, let your pain reach me and hit me on the head", my term was about Ahmad ..., I should turn away from you ... I really want what is the secret of my heart ... I ask God to join him as soon as possible . "If I write to him, take me ..." Source: Mashreq website

Where are the unassuming men

A few hours after the Bam earthquake, the martyr Haj Ahmad Kazemi called me and said: We want to go to Bam with Sardar Qasem Soleimani to help him ... He asked me to inform the Safavid general. At that time, I was the head of the office of the Safavid chief ... In the

morning, I informed the Safavid chief about the matter, and he, too, went to Bam quickly. "When he arrived, he saw that Martyr Kazemi had taken one head of a stretcher and the other head was in the hands of Hajj Qasim, and now they are on the way to place the wounded ..."

On the fortieth day of the martyrdom of Martyr Kazemi, I saw him in a dream and asked him how he was. He said, "I am fine." And he continued, "Do you remember the story of Bam?" "What we did there, it worked here ..." "This word was uttered by Martyr Kazemi, who during the war had eight years of holy defense and was influential in the conquest of Khorramshahr and in the military arenas." However, he did not mention it and referred to the jihadi service, and years later, after receiving the same service in Bam, he also took the hand of Martyr Soleimani ... "According to Sardar Nasr.

- Converting a dirt battalion to a special diving battalion

After Operation Karbala I, we came to Ahvaz in July 1986, when the city of Mehran was liberated. They said: Hajj Qasim Soleimani, the commander of the 41st Sarollah Division, said, "Come to the meeting." Mr. Nabizadeh and Mr. Malparast and I participated in the meeting. Sardar Soleimani said: For future missions, we need to strengthen and increase the divers' battalions. (At that time, there was only one battalion of divers, the 410th Battalion under the command of Martyr Ahmad Amini, who was martyred in Valfajr8.) No one is better than the warriors of Hormozgan and go and prepare the ground for launching diving battalions from among your forces. Sardar

Soleimani sent us to Mashhad for an encouraging trip to visit Imam Reza (as). We went with the staff to visit Imam Reza (as) and returned to Bandar Abbas from Mashhad. And with reference to the First Navy Area, we started the diving training army on the coast of Bandar Abbas; Haj Qasem Soleimani, the commander of Lashkar-e-Allah, with his experience and expertise in the fighters of Hormozgan, including our commander, Mr. Mansour Nabizadeh, trusted him and turned to him in this order. When Mr. Nabizadeh's 422nd Land Battalion was transformed into a diving battalion, the first operation took place three months later. Therefore, one of the battalions that shone very brightly in Sarollah Division was the 422nd Battalion of Hormozgan Province. Indeed, the testimony of clothes that just fit Haj Qassem, just like a martyr, "Mostafa Chamran" Mujahid tireless hard times both in Lebanon and in front of the holy war was the death of his escape, he ran seeking martyrdom. .Narrator: Sardar Reza Torabi, former commander of Imam Sajjad (PBUH) Hormozgan in the religion

- Sardar Soleimani's reaction to his candidacy proposal

- The memory of Ayatollah Nouri Hamedani from the signature of Martyr Soleimani

Hajj Qasim Soleimani came and went frequently in our office, At the last meeting, after the official meeting, they said that everyone should go out, that I have a special business with you, and that they should stay in the room. Hajj Qasim brought his shroud from the bag and told the servant to sign my shroud and write your name and we also signed, Then he said, "I want to say a few rak'ats of prayer behind you as a farewell." After seeing him, I was overwhelmed by his faith and insight. He had a love for jihad and martyrdom, and I embraced Sardar Soleimani at the time of his farewell.

- Narrated by Haj Qasem Soleimani:

When I told Ayatollah Bahauddin that he had witnessed the martyrdom of "Hussein Ali Ali" on the barbed wire at night, his friends passed through the passage he cried for more than 10 minutes

- Kissing the soles of the mother's feet?

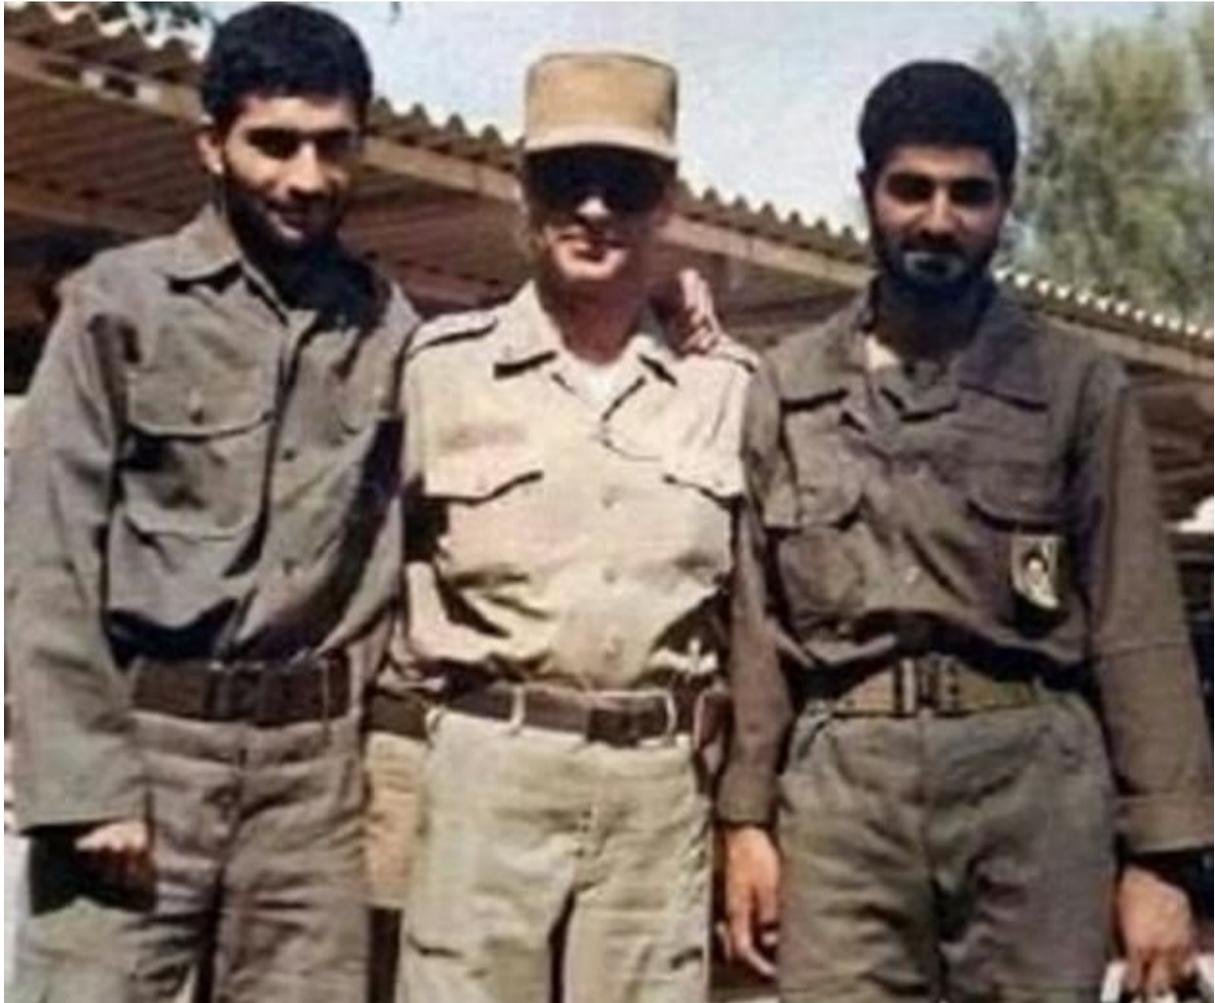

The honorable mother of Sardar Haj Qasem Soleimani, who passed away, a few days later, with a group of journalists, we decided to go to the village of Qanat Malek to offer our condolences. By prior arrangement, we left on the day that the chiefs were present in the village. When we arrived, we saw them sitting next to their mother's

grave and reciting Surah Al-Fatiha. After greeting us, he told us: I am going home to recite the Fatiha and come. After reciting the Fateha, we went to his father's house. He spoke to us about the status and dignity of the mother and said: Do not publish what I am saying anywhere. He said: I always wanted to kiss the soles of my mother's feet, but I do not know why I did not get this success.

The last time I came here before my mother's death, I finally found happiness in it and kissed my mother's soles. I thought to myself that I must go, that God succeeded, and that my need was met. "I did not know I would not see these tired legs again until I had a chance to kiss them," said the chief, wiping the tears from his cheeks.

An army and two Basij guards next to each other, a man wearing the army uniform of the Islamic Republic of Iran, have a place in our eyes.

But for a few moments, pay attention to the two young people standing next to them ...

Fully defined clothes, they did not even have a shirt of a suitable size to wear. There is no pride in their gaze, they do not even look directly at a camera. The appearance of the drooping faces and smiles reminds one of every character except the man of war. Anyone who sees this photo, considering the appearances of these two people, says to himself, "Who let these two people go to the front?"

Those who not only do not have any military academic education, do not even know how to raise their sleeves in a military way. But after all these words, what role do these two simple and clean Basijis play for the future of their country? ...

One of them became the commander of the artillery and missiles of the Revolutionary Guards, but the unit did not even have a cannon! That is, he became the commander of a unit that had no external existence at all!

That one also became known as "Qasim Loader Thief" !?

Because the supporters of jihad did not have a loader to dig down, they toiled at night and borrowed from the Iraqis! Yes friends, a younger days like these two dear in the photo without fancy features, without pay and without waiting for too many battles were fought earnestly for Iran and Islam ... They get bigger and bigger, but intellectually And spiritual and not from the material point of view and the sense of leadership and servant

Time has passed and time and time has passed ... Long after this memorable photo was taken, we Iranians recognized these two young people in a different way ... One of the two, by advancing the knowledge of the missile launcher, protected Iran from the attack of the superpowers. In addition to leading proxy wars against the United States in Iraq, Afghanistan, Syria, Lebanon, Iraq, Yemen, etc., the next person will protect Iran from terrorist and security threats in the region. Yes ... My dears, the Basij youth, who were not noticed one day and were evaluated by many at a low level, became the founders of the current security and reputation of our Iran

- 14 years ago, the Supreme Leader of the Revolution predicted the power of intercession of Haj Qasim

The eldest son-in-law of the family, Jawad Ruhollah, asks the leader of the revolution to intercede for all of us who are here on the Day of Resurrection, God willing ...

Imam Khamenei says: What are we doing to intercede for you? The martyr's parents must intercede for you and me ...

We are happy with this and we wish to be interceded for by such good martyrs as these martyrs and the like.

After the leader of the revolution, they bend down and look at Hajj Qasim Soleimani and say: This Mr. Hajj Qasim is also one of those who intercedes, God willing.

Haj Qasem Soleimani lowers his head and covers his face with both hands.

- Yes! Promise them, as long as they do not break their promise! Everyone laughs, everyone except Sardar Soleimani, who is embarrassed and lowers his head ... The leader of the revolution continues: Because their facilities, their facilities for promising and interceding, are very good now ... (That is, the state of his struggle in the jihad of Asghar and Akbar) If they can keep this, like the forty, fifty years they have kept; It's very good.

"This is also an art that they have ..."

Some people think that in the period of progress and construction and development and I do not know so and so, they have to release the restraints and clauses that you had in the first place. They did not understand that every time a period changes, the duties and types of struggle change; But the spirit of Mujahideen that was that day should not be changed. If the spirit of Mujahideen changes, you will become like people who sat in front of the TV in their homes during the war and watched foreign films ...There is a moment of silence and the audience thinks.

Javad Ruhollahi (the groom of the family) says: A few months after that visit, the month of Ramazan, at the Iftar ceremony (break a fast) (every year Hajj Qasim to the friends of the front and the war), I asked him to intercede at the entrance door. Haji wanted to reject me, so I said: Haji! God, if you do not promise, I will shout and tell all the guests what the leader said about you that day? Hajj Qasim, who saw that the situation was getting worse; He said: Well, I promise; Just raise your voice!

Two of the identical children were separated from us. They went ahead in the water in diving suits. No matter how much we delayed, they did not open. We had to go to the station before the weather cleared. Mohammad Hussein, who was in charge of the intelligence of Sarollah Division, discussed the matter with Haj Qasim Soleimani, the commander of the division ... Haj Qasim said: I should go to the camp. If the enemy is captured, he will be informed of our operation. But Hussein said: To be tomorrow, be sure to wait. Tonight, I will specify the duties of these two people ... I saw Hussein the next morning. He was happy. I said: What happened? ... Did you inform the station? .. He said: No. I asked: Why?! ... He paused and said: Last night I saw both of them. Both Akbar Musa Pour and Hossein Sadeghi ... I said happily: Where are they now? ... He said: I saw them in a dream.

Akbar was in front and Hussein was behind his head. Akbar's face was light! It was very bright.

Do you know why? ... Akbar, if he was in the water, he would not leave the night prayer. Secondly, Akbar was nominated. He had done his homework, which was half his religion, but he was honestly single. Akbar said in his dream that you should not be upset; The Iraqis did not take us, we are going back ... I asked: How?! ... He said: They have been martyred. Their bodies will be brought to the beach tonight. I was sure of Hussein's words. I stayed near the beach at night. Last night the beach guard called from a little further and said: Something is found on the water. When I went, I saw the body of Martyr Sadeghi coming to the beach! ... Akbar's body was found later! ...

- Qasim Soleimani, narrator of the martyrdom of Yousefollahi

The martyr "Mohammad Hussein Yusuf Elahi" is a mystic who in the unit of information of the 41st Division of Sarullah, has passed the level of perfection to God and is less of a warrior who will one day be like Muhammad. He is an example of the mystics and mystics who, according to Hazrat Ruhollah (may God have mercy on him), spent a hundred years overnight. and the eyes of all the old men and old men, mystics, longed for a drop from their endless sea. Martyr Haj Qasem Soleimani about the manner of martyrdom of Martyr Mohammad Hossein Yousef Elahi said that when they were in the operation room,

the enemy was killed in an operation. He took his allies out of the trenches and later he was martyred due to a chemical complication .. He went on to describe this martyr and said that he wanted to bury me next to him after his death ... But who was he that Hajj Qasim wanted to be buried next to him? ...His comrade-in-arms says that Hussein was one of the mystics of the front and prays the most beautiful prayer at night, but no one sees him, he is a friend of God and he has removed the veils. In his memoirs, Hajj Qasim says to this great martyr: One day we went to Abadan with Hussein. We had a big operation ahead of us.

Some of the previous work had not been done successfully and on the other hand our last operations had also been canceled. I was very upset. I told Hussein: We carried out several operations, but none of them were as successful as they should have been. This one, like the others, does not work. He said: For what?

I said, "Because this operation is very difficult and I know it is unlikely that we will succeed." He said: "Incidentally, we have succeeded in this work.

I said: In operations that were easy and we did not have any problems, we could not do anything, but we succeeded in this one, which is

completely different and is the most difficult! ... Hussein laughed and with the same reliance on his usual words said:

Hussein, son of Gholam Hossein, I tell you that we have won in this operation ...

I knew he would not say a word. Certainly through what he says he has faith and confidence. I said: What do you mean, where do you say? ... He said: I finally know. I said: Well, how do you know? "We were told we would win," he said. I asked: Who told you? He replied: I asked Hazrat Zainab (peace be upon her) again? He replied with a laugh: What are you doing? Only the body of Hazrat Zainab (peace be upon her) said that you will be successful in this operation and for this reason I say that we will definitely succeed. I asked him to explain more. He did not say anything and contented himself with just a few sentences. There was no need to explain further. His confidence was enough for me. As I said, I always believed in what he said. When the operation is completed successfully.

I remembered the words of Hussein that day and the faith and determination that was in his words and I never regretted this confidence in him ... Narrator: Martyr Haj Qasem Soleimani

- Take a picture now?

Hajj Qasim was always a fugitive from the "camera". He did not like to be photographed and filmed. In the face of us who were doing the job of recording the photo, he always said sadly: Do not catch, do not catch! ...Sometimes the work would lead to intense encounters. Of course, after that, he consoled us. Once after this incident, he kissed my face and said: I kissed you knowing that I love you, like my son. But I also have some disabilities ... Hajj Qasim's disabilities, but only for operational areas and missions. When certain situations, such as sightseeing, arose with the martyrs' families, his behavior changed completely ... At these times, he himself accepted to take photographs.

The martyr defended the shrine and said: Now take it ... One of the most famous photos I took of Hajj Qasim was three years ago at the graduation ceremony of the officers in the University of Imam Hussein (Peace be upon him) .. That photo shows Hajj Qasim in a position where he stands with one hand in front of the great leader of the Islamic Revolution as a sign of military respect. And the other hand has been placed on the chest as a sign of devotion and heart respect. This may have been contrary to military custom and etiquette, but it showed a special courtesy and heartfelt devotion and special humility of Malik Ashtar in relation to the Commander-in-Chief. Now and as always, you have raised your head

- The story of Haj Qasim Soleimani and Abu Mahdi the engineer! When we reached a remote village in Ahvaz, our Ahvaz companion said:

"Hajj Qasim is here!" ... We looked around. Everything was normal. We did not believe it, but we got lost. We quickly picked up the cameras and moved in a hurry. I forgot in the middle of the road, I didn't even wear boots!

They sat on a sack with Abu Mahdi al-Muhandes and enjoyed with the people. We were surprised that he was "Haj Qasim Soleimani". How intimate and lovable he is! He is by the side of the people and with the people! Without any bodyguards or helpers or cops around them! How calm and serene! How kindly they touched the heads and faces of children and adolescents! At the same time, we tried to record all the moments.

We took pictures of him as he took a piece of rock and took it in a radiant state and said with a smile: "Do not take a picture, my dear!"

One of the personal clothes came to us and remarked: "Do not take pictures! Haji does not like taking pictures! But we did not listen. What greater success can our memories be filled with the photographs of Hajj Qasim. It is also free without any license, supervision and protection!"

During photography, we tried to pay attention to Haji's words and their conversations. They told him with authority and seriousness: "I will not get up from here until the cars come to close the flood. Our boss gave me a phone and said, "Show our work to Haji." I picked up the phone and it was empty next to them. I left quickly. I started warming up and asking questions. As if they have known me for several years. I bridged the clip and handed the mobile phone to them and explained the title and subject of the video. A few seconds after the movie, Haji said:

"Who fixed this?" ... I replied: "Our friend" emphasized: Exactly when? Are they here? Show them .. I showed the children one by one in the crowd. Haj Massoud, Shah Habib, Mohsen and Mr. Mostafa! They looked at each of them and shook their heads and said goodbye! Heavy machinery then came to help build the floodwaters, and the Hajj Qasim was lifted and taken into flooded houses. They spoke to the Ahwazis in their own accent and language, asking about their problems and comforting them. The village was wonderfully spacious. The hearts of the people of the village were turned upside down like their houses. This can be understood from their looks and behaviors, from their words and expressions of love. In the meantime, we came alone in the back alleys of Abu Mahdi Mohandes (commander of the Hashad al-Shaabi of Iraq) and took the opportunity to talk to him. I asked him: "Why did you come to the aid of Iran in the current situation in which the country of Iraq itself is facing problems?" ... They replied: "... The people of Iran and Iraq are one." "It is our legal, human and religious duty."

Hatami Kia's complaint from Sardar Soleimani to the Leader of the Revolution

In a private meeting we had with Ibrahim Hatami Kia in the service of the Supreme Leader, Mr. Ibrahim told the Supreme Leader that he would love to make a film about the life of Hajj Qasim, but he was not satisfied with it. The leader also said that they are very busy and that may be the reason. May you be patient! After that, Sardar Wahid

also said that he wanted to go to Hajj Qasim's house and hold a meeting to satisfy them, but he was not interested.

He went on to explain: "Many pictures of Hajj Qasim have been recorded, but none of them have been released yet." The likes of Hajj Qasim did not want to be talked about and did not have selfishness. Some people go through this stage and have higher goals in order to show themselves beautifully.

- God, keep me clean

Dear Sardar, before their martyrdom (they said maybe three hours before they were martyred), they wrote a small text and gave it to the girl with a rosary and a finger. In that hand, they have written once, God accept me; Accept me. They wrote in another corner twice: God, accept me clean. It is far from being clean. The purity that he wants to achieve is very different. One is that on our tongues God forgives our sins. And one of them is that God will purify us; That is, bring me out of my selfishness ...

A part of them has written this sentence, which is one of the meetings that he showed to Moses (pbuh) that he could not bear and that he would not be able to stand against you. share it with me and I want to see you like this. The meeting of Moses was one of these meetings. Moses prayed to God that I would see you in a way and realize your greatness on a horizon where my self would be completely removed. and there is no self left for me; Because, after all, they all come to meet God when they die; (It) is different from the level of

meeting God (who). In a way, man reaches the meeting of God so that when he reaches the meeting of God, there is no other self in action. I am no longer standing on my feet and I am not at all. To be intoxicated in the face of your greatness (and) to have nothing to do with myself anymore. Share these views with me. This is a great introduction. I do not have exact information, but I heard from your friend that the martyr Sardar Soleimani during his lifetime with some of the disciples of the late Ayatollah Ansari Hamedani, may God bless him and grant him peace. And (of them) were used in spiritual matters. These professions are for the same horizon of epistemological issues that one demands from God, going and martyrdom,

Ask for a testimony that is a testimony to purity. Just do not say, Gods, martyr me. The martyrs of the way of God also have degrees. Accept my God and accept Him clean.

The Untold Stories of the 33-Day War

As soon as he sat down, he said that it had been twenty years since he had given a press conference; It is a final calculation from the time he was entrusted with the command of the Holy Sepulcher. This time, however, the subject matter of the conversation became the reason for Hajj Qasim to respond positively to our request; 33-day war.

Speaking of Hajj Rezvan, he gradually changed his voice and burst into anger; He apologized and said that we should make another appointment, I can not continue today. He said that today in our

country, the word Sardar and Amir has become commonplace, but in fact, a Sardar in the true sense of the word was the martyr Emad Mughniyeh.

- The memory of the abduction of Hajj Qasim, God, keep me clean

Qasim was injured. He was sent to Mashhad for treatment. Because his abdomen was cracked, he had opened his chest from under her chest to her bladder and was in a bad condition. For 45-46 days, no one knows whether Qasem Soleimani has been killed or martyred. He was also the battalion commander at the time when he was wounded. Finally, Shahid Movahedi Kermani, the son of the same Mr. Movahedi Kermani, found Qasem in Mashhad and said that he was in the third floor of a hospital in Mashhad.

Hajj Qasim's doctor was a hypocrite and wanted to kill Hajj Qasim. For this reason, Qasim's abdomen was left open and he became infected. A nurse with the honor of Kermani had stolen Qasim overnight because of his Kermani sense and nationalism, and replaced him with two other patients in another class.

And he told the doctor that Qasim had been taken away from here ...Qasim was injured in the hand again for another period, until they said you were afraid to go to the doctor, until they said you were going to the hospital. Our atmosphere was at war. I am talking about national identity and self-confidence that the war brought with it and watered this nation ...

- Isn't Hemmat just a role model for the children of Tehran?

If we want to know the difference between Hajj Ahmad Motusalian, Hajj Hemmat, the commanders of the Martyr Battalion with a classic commander of the world army, in addition to spiritual and behavioral issues the word was "come and go." Our commander would stand in front of the battlefield and say, "Come on!" But the classic commander stood back and said, "Go!" This is the memory of those valuable documents and oral histories of the Holy Defense, which may be the best answer to the suspicion of some who wanted to or did not want to be the commander. Out of the 12 founding divisions of the time of the war, 7 commanders of the division were martyred. From the 27th Division, Muhammad, the Messenger of God (peace be upon him), four commanders of the Division were martyred one by one ... This is the same meaning of "come" from the commanders of our war. The same secret that the images from the Syrian and Iraqi fronts and the situations of Hajj Qasim also narrate about not being afraid and saying "come" ... A memory of Martyr Soleimani

- The care of Hazrat Zahra (peace be upon her) in the 33-day war

One of the brothers in charge of Hezbollah told me that, I was asleep and awake when I saw a lady in full hijab standing in front of me and two other women standing next to them, a little behind the back of their head ... I felt that she was Hazrat Fatemeh Zahra (peace be upon her) ... I went to the lady and said in Arabic, "Look at our situation ... you can see what our situation is ..." The lady said it 's okay I said I insisted that I take something from them ... The lady said again it gets right and he took a handkerchief out of his garment, and shook it, and

said, It is finished. A moment later by firing a missile Israeli helicopter crashed and within a few minutes after seven Merkava by missiles Kornet-torn and burned and the tide of the war in favor of Hezbollah and the resistance axis back and after 33 days of fierce fighting and History For the first time, Israel accepted all the terms of Hezbollah and withdrew ... Narrator: Martyr Hajj Qasim Soleimani

- A familiar anecdote

Just as the Supreme Leader of the Islamic Revolution of Iran did not even accept and deliver the Trump message that was brought to Iran by the Japanese Minister's first visit to Iran. A similar work was done by Martyr Ghasem Soleimani, who was told by the head of the Office of the Supreme Leader: Recently, when Qasim Soleimani was in Bukmal, the head of the CIA, through one of his liaisons in the region, sent a letter to Soleimani, but he said:"I do not take or read your letter and I do not speak to these people at all ..."Who are these people who deal with arrogance like this? The likes of Qasim Soleimani are the products and educators of the Islamic Revolution; He is the one who writes a letter to the leader and says:

"Your son and soldier, Qassem Soleimani"

- People accept me

I am not a member of any party or faction and I am not interested in any party other than the one who serves Islam and the revolution. But know this, I swear to God, I know the Shiite scholars completely and closely. This is my job for fourteen years now. I know Lebanese scholars. I know the scholars of Pakistan. I know the scholars of the Persian Gulf. What Shiites and what Sunnis ... "I swear by God, I bear witness to God,"

The supreme leader of all these clergy, these scholars from Iranian and non-Iranian authorities, is this great man of history, that is, the "Grand Ayatollah of Imam Khamenei." "If you want to be good in the end, we must follow the Wali Faqih. In the resurrection, we will see, "The most important axis of calculation of deeds is obedience to

Velayat-e-Faqih. "In the country, nothing should be said against the policies and menus of the leaders of the revolution, and if it is said and there is no protest, we are guilty of it ..."Martyr Qasim Soleimani.

- Martyr Haj Qasim

The condition for becoming a martyr is to be a martyr ...

If today you see someone who smelled martyrdom from his words, his behavior, his morals ... he will be martyred ...

Wise resistance ...

From the first hours after the martyrdom of course proud Gen. Qasem Soleimani and comrades and fighters with him, by numerous aimed at mediation to avoid answering the Islamic Republic of Iran to the criminal and terrorist acts, or bound in Tehran or in contact with

authorities The contents of our country pursued this goal. These messages may be different, but they have a single purpose, for example.Honorable Minister of Foreign Affairs, the American message through the Swiss embassy in Tehran was considered "outrageous" and "irrational"

There are two sets of analysis and prescribing that in the analytical environment of the country, of course, both of them emphasize the need for a decisive response from Iran to a criminal act by the United States.some believe that the answer is firm, quick and deterrent.others

emphasize the need for vigilance and vigilance to keep the country away from future dangers and threats.

Of course, I am not an expert on these issues and I believe that by the grace of God, the political and military officials of the country, as well as those who, during the decades after the revolution, were able to lift the ship of the country from a severe storm and make it a major event. This time, too, they can make the right, accurate and comprehensive decision, so that the blood of the brave leader of Islam, the revolution and the homeland will not be trampled on, and the bride and groom will be honored. Nevertheless, by observing the events and developments that long ago I remember a very important issue separately from the two great personalities of the Arab world and the region, I heard that I saw it imperative to share with the readers of this book. It should importantly be noted that the philosophy reaction and exposure Republic against various threats, the nature of Iran based on religious democracy and the principles of dignity, wisdom and expediency is the reaction of an authoritarian regime there is different. And without a doubt, with the pure blood of this high-ranking martyr, the tree of resistance will be stronger than before. Both of these personalities, well-known, experienced and influential nationalists in the Arab world, stated that: at an international conference, James Baker sees Tariq al-Hashimi, Iraq's foreign minister, and gives him a text message from Bush to Saddam. Dear Tariq, contact Saddam to get a job and he will reply that you will not receive the message but ask for its content.

A message that contained the surrender or destruction of Baghdad. This message changed Saddam and threw him into savagery, forcing him to retreat. and the result was the same in the end, Saddam contempt pulled out of its hole. These two add that if Saddam At the same time, at least in terms of physical strength, he is perhaps the fate of "non-hiding in a hole" afterwards; But the Islamic Republic is not just afraid of the American threat; Rather, he practically confronted his aggressive policies with serious measures. Undoubtedly, the secret of the retreat of the enemies from the use of the military option against the Iranian nation has been the resistance of the Islamic Republic. The reflection of this power in the public sphere of the nations of the region is very hopeful on the one hand, and on the other hand it causes despair to the enemies. Today, this model is a threat to the system of domination and they do not want such a model to remain stable in the Islamic world and the countries of the region. So learn a lesson, O owners of wisdom

- The reason for the assassination of Sardar Soleimani by the American people. Qasim Soleimani had stopped the US from abusing Iraq and that is why Trump took revenge on him.. Qasim Soleimani stopped the forces trained by the United States and the CIA, the forces that wanted to paralyze Iraq like Syria so that they could re-emerge from Iraq. This terror was revenge for this powerful man. While Soleimani stood in front of ISIS.

Soleimani was the enemy of al-Qaeda, which is responsible for the eleventh of September attacks. Democrats are doing nothing to stop Trump from sending weapons to Nazi supporters. This country has decided to change the regime in Bolivia and the war with Venezuela and North Korea, while these are countries that do not like to be colonized ...

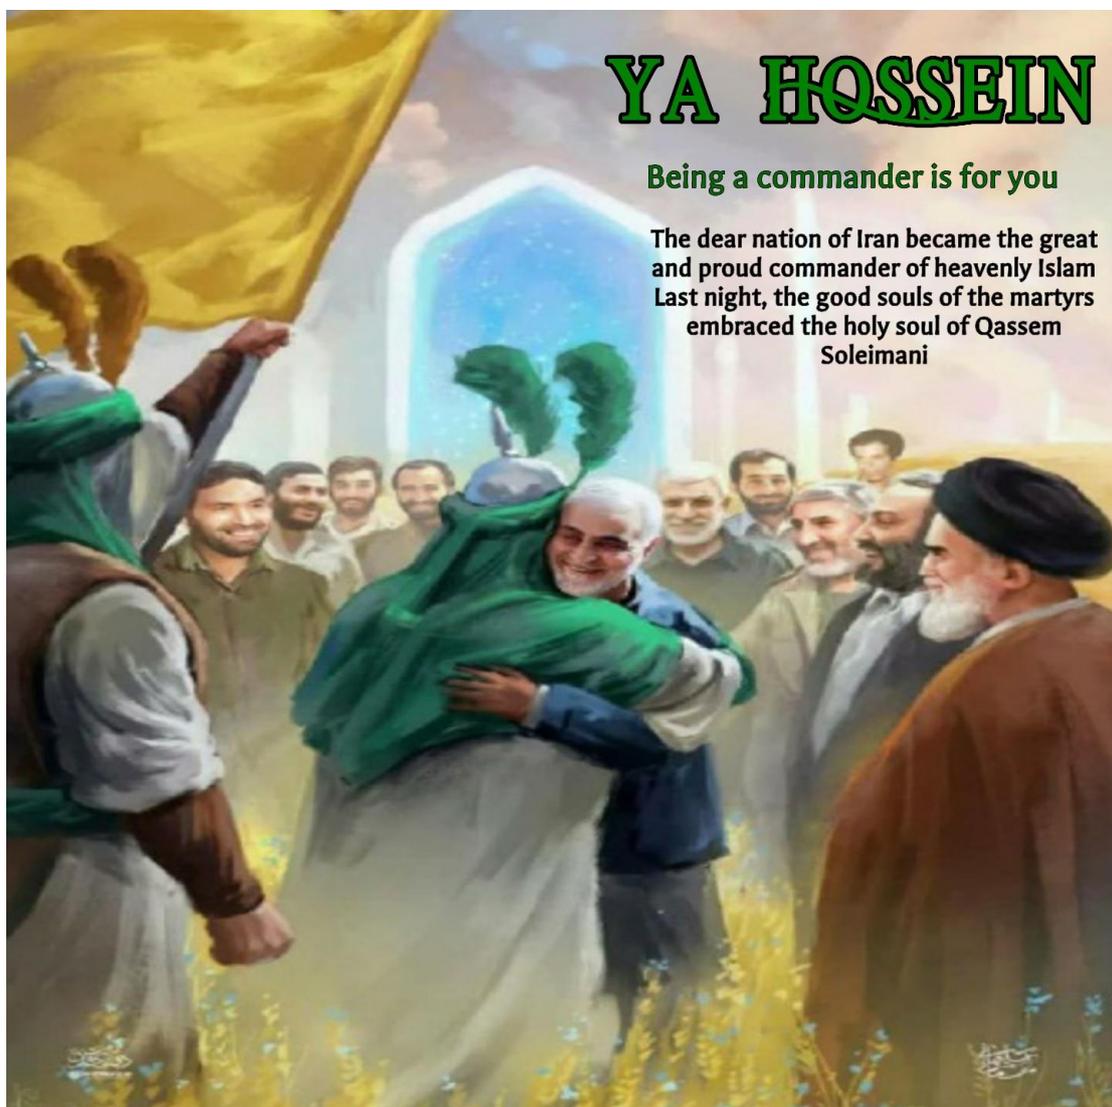

Characteristics of the command, Sardar General Haj Qassem Soleimani ...He wore the simplest clothes ... he used the least facilities ...He did his best. He had the least dignity and prestige for himself ... He goes to the front line in front of others. If he was not ahead of his forces, he would not be behind ... he was on leave less than the others. He was the most humble of all.He was the bravest of them all. The command did not give him any special privileges, material or welfare. He did not pursue material and spiritual titles. If they were to dig, he would dig, and if they were to sit on the ground, he would sit on the ground ...

He did not see himself as above the ordinary force, and of course he assumed himself as the lowest force, and for this reason his self-sacrifice and self-sacrifice were greater than all.and his forces gave him life with love ...

He was saving because he knew that he was being spent in his rightful place, and in the end, in a word, he was living ascetically and selflessly more than any other life ...

Those who were commanded were the most deserving. The forces also acknowledged this point. It is clear that the relationship of the subordinate force with this manager and commander is not a matter of material humiliation and glorification, but rather that the force is more sensitive to the senses. Here, the relationship is a kind of self-sacrifice and love. Such behavior differs from moral advice

The Basij and Jihadi management of Martyr Haj Qasem Soleimani is not a recommendatory and mere preaching management. Rather, this Basij and Jihadi leader sets himself apart from others more than anything else by his behavior and morals ... Therefore, if Basij and Jihadi management is institutionalized in an organization, such characteristics will emerge proportionately. and the organization, relations, and occasions turn in such a way that the virtuous morality is nurtured and the possibility of prosperity arises ...

- Do you look familiar?

I was returning from the mission once, I did not wait for the car to follow me. I took a taxi from the airport directly, he was a young taxi driver who suddenly made sense to me ... I said to him: What? Do you know familiar? ... He looked at me again and said: Do you have a relationship with Sardar Soleimani? ... I said: I am Sardar Soleimani. Young laughed and said: "We do this ourselves. Do you want to paint me and deceive me? ..." I laughed and said: I am Sardar Soleimani ... he did not believe ...

He said: Say: I swear to God that you are the Sardar! ... I said: I swear to God that I am Sardar Soleimani. He was silent, he did not say anything else. I said: Why did you keep silent? ... He did not say a word ... I said: How is your life? What do you do with expensive? What is your problem? ... Young man looked at me meaningfully and said: If you are the Sardar Soleimani, I have no problem ... Direct narration of the memory of the martyr Haj Qasem Soleimani

- Take care of yourself young

You kick the image of a man after he was torn to pieces, that even now that you have climbed it, he worries that you did not fall ... The harder you hit him, the more he will not be disappointed, just be careful not to fall neither from the horse nor from the original ... Some others who whistle and applaud you there consider Hajj Qasim as his own children ... Hajj Qasim does not mistake you for America and Israel ... He may also be happy with how daring you are. Hajj Qasim is

a student and soldier who leaves it to his friends and does not suffer from the tearing of his photo.

And these two disciples are Imams who said that instead of my soul, you are Khomeini. If people say that death is for Khomeini, it does not matter to him ...hit young, just be careful not to fall ...Hajj Qasim has now opened his hand more in the realm of the world than before ... Oh, maybe he will hold your hand too ...Just a word for the answer you have to give to his kind look ...Hazrat Agha said in 2009 that if my photo was set on fire and torn, we should remain silent! ... Part of the horrible crimes of ISIL ...

ISIL forces occupied 90% of Syria and 58% of Iraq and even reached the Zainabiya wall in Damascus ...

When ISIL approached the shrine of Hazrat Zainab (God bless her), ISIL was writing a slogan on the wall of the shrine that some of these slogans are still ...

The commander of ISIL boasted on his wireless near the shrine of Hazrat Zainab (God bless her) and said that Abbas, where are you that we will take Zainab out of the grave.

ISIL raided a house in Syria while four children were eating with their parents in the house. ISIL beheaded one of the girls who was not more than 9 years old, so that the girl spilled blood on the food and forced the girl's family to eat this food with her child's blood ...

ISIL would take a newborn baby from the hands of its parents and beat them and stick them on the wall. and with this body he played darts with a spea

ISIL tore the abdomen of a pregnant mother in front of her husband's eyes and stipulated that the child is a girl or a boy, who comes out of the womb of this mother ... At the same time, they took a child from its mother's breast, fried it like a sheep on the fire, put it on a pilaf, and sent it to the mother. This horrible crime is rare in the history of humanity, it is not a small phenomenon, it is not a small disaster ...

The United States emptied military equipment and weapons directly into the air for them in the midst of conflict. The scariest military equipment was being pushed from the sky!

Where can I tell? The whole of the United States, Europe, Canada, Australia, NATO, etc. were "providing equipment, financial, intellectual and operational assistance" to ISIL

The latest generation of anti-tank missiles (IS) were given to ISIL ... The price of these missiles is so high, sometimes it is more expensive than the price of the tank they hit! With anti-armor (Tau missile), ISIL kills people! ... Do you know what it means? ...

Until ISIS attacked the strong barrier of Iran and the resistance front ... The lovers of Amir al-Mu'minin (pbuh) and Imam Hussein (pbuh) encountered the net of "your lion, the children of Haidar Karrar" With the headbands of "Ya Zahra" (God bless hers)"The heroes of the IRGC men, the heroes of the Islamic Army, the sons of the Fatimids of Afghanistan, the zealots of Pakistan, the Heidarians of Iraq, the Lebanese lions and ... did you treat the Iranian people ...?"

Now we and the destruction of ISIS ... Now we need to understand more about what Suleimani and the martyrs who defended the shrine did ?! You should understand why the enemy has entangled our Revolutionary Guards?! ... Why do they say to put pressure on Iran to withdraw its forces from Syria? But they falsified the idea. The first step was to give Syria full authority to Bandar al-Daqqiyah to Iran ...That is, Iran has a port in the Mediterranean by land between Iraq and Syria.In other words, sanctions will be completely circumvented for Iran ... You should understand that the whole story was in the region from the beginning to the end of your friends in Iran, and then the expression of Iran's theftNow we need to understand more. The more money we spend in Syria, the more its benefits will be multiplied by hundreds. "You should understand so as not to be deceived by the false rumors of the British BBC ..."

We should trust and be proud of the policy of the leader of the Islamic Republic of Iran, because we are visionary Iranians ...Because at present we have created a zone of influence in the Middle East to protect the security of Iran and all the oppressed people in the Middle East ...And we owe all this to Imam Khamenei, the martyrs, leaders and commanders of the resistance, especially the martyr Qassem Soleimani, the central commander of the resistance ...

Iran's victory and resistance in World War ...

Pay attention to the following news

The UAE reopened its embassy in Damascus ... Saudi Arabia and Bahrain also informed us that we are coming ... The United States is leaving Syria ... Europe is stunned, passive and anxious, looking for the victory of the resistance without any reaction ... Bashar al-Assad, in the front of Hezbollah and the Palestinian fighters, remained in

power as the bridge of victory ...The United States, Europe, all the Arabs, Turkey, Canada, Australia, etc. (in a total of more than 120 countries) wanted to overthrow Bashar al-Assad, but Iran and the resistance did not want it, and as a result, Iran resisted.

(Exactly like the eight years of holy defense that Iran has won against the whole world

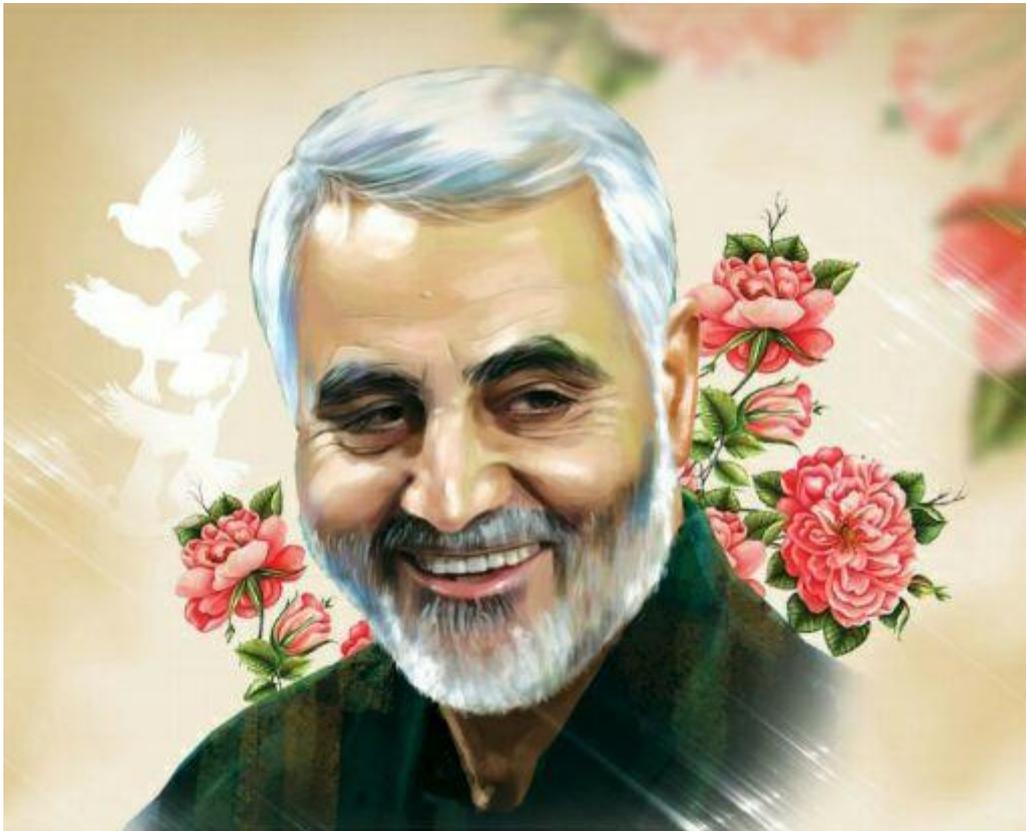

For the first time, Russia and China supported Iran and the resistance ... For the first time in history, a superpower (Russia) did not enter directly into the leadership in favor of the resistance through leadership tactics ...Iran was bordered by the occupying regime in Jerusalem and Israel was besieged by Lebanon and the occupied territories! ...The suppression of ISIS and the liberation of Iraq and the country's annexation to the resistance front for the first time since the Achaemenids brought Iran to the Mediterranean through Iraq, Syria and Lebanon.

- The story of an Iraqi commander from Hajj Qasim

All the operations that Hajj Qasim planned in Iraq to counter ISIL were without exception successful. I say with confidence that if it were not for the help of our brothers in the army and at the head of them, General Haj Qasim Soleimani, victory in Iraq would not have been equal to the Takfiri terrorists. Unlike the United States and Turkey, Hajj Qasim Soleimani did not enter Iraq with the army. Hajj Qasim spoke to the 25 commanders of the Iraqi army, and all the commanders obeyed his words. All the operations that Hajj Qasim planned in Iraq to confront ISIL were without exception successful ...

"Mohammad Mehdi Al-Bayati" Member of the Central Council of the
Badr Organization of Iraq

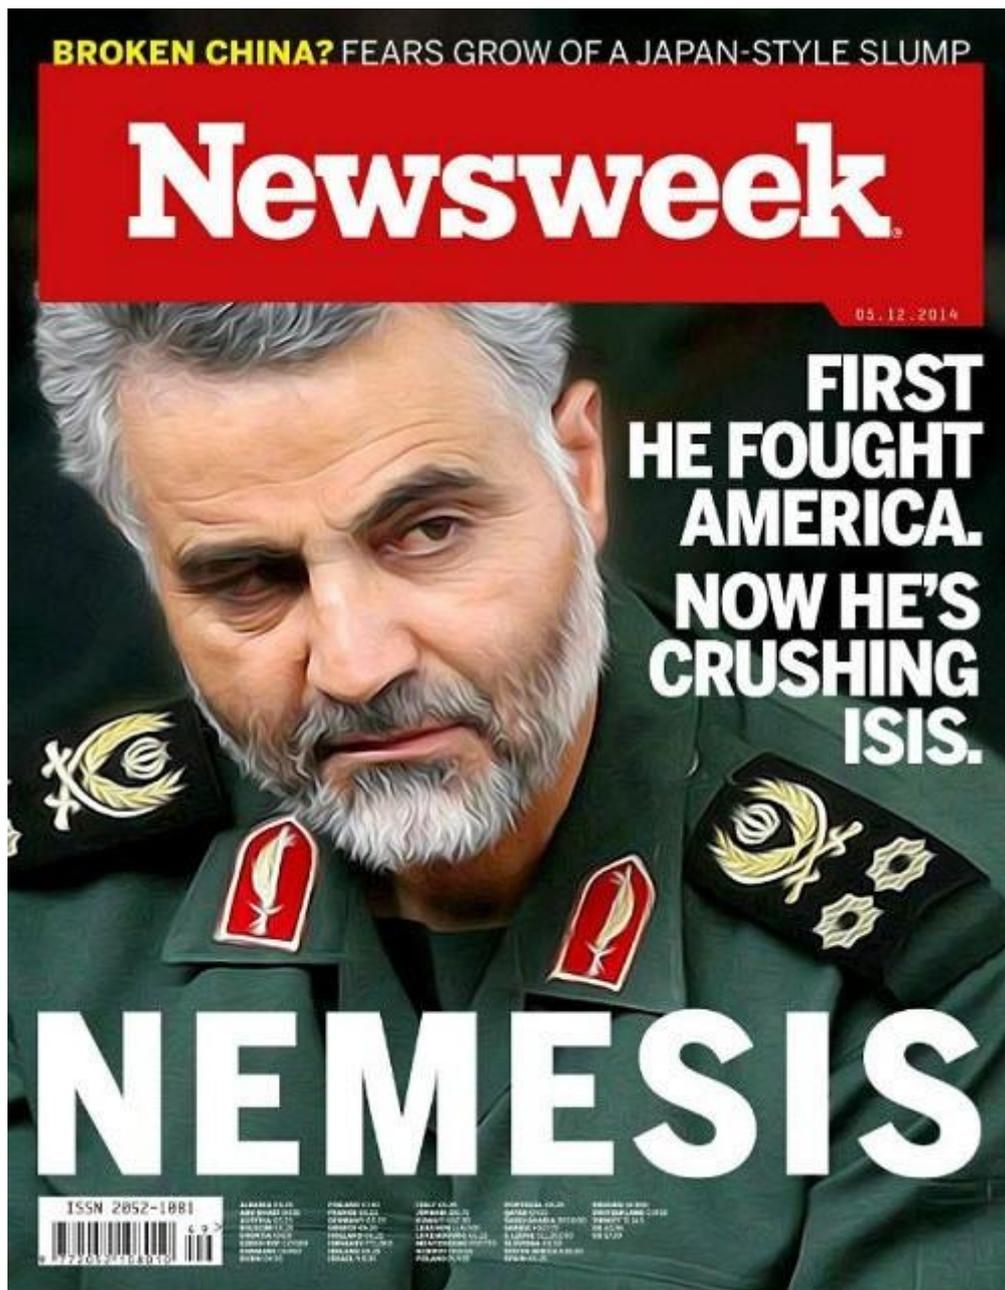

Petraeus and Pompeo ...

Two CIA chiefs panic and beg from an IRGC commander

Boasting Today Secretary of State of America against Iranian Revolutionary Guards while the top generals of US in the region already have acknowledged Quds (as a small part of the Iranian Revolutionary Guards) and the nightmare of their own and again the shadow of death to credit the influence of the army in They have seen the region above their heads ...

Pompeo (former head of the CIA) must not have forgotten that two years ago he wrote a letter of helplessness and a plea to Suleimani, and was met with his inquisitive indifference. He certainly confirms the cover story of Newsweek that Soleimani investigated ISIL and the United States together.

Trump and Pompeo can also read a report in the Guardian newspaper and a speech mixed with the inability of General Petraeus (CIA

Director) in August 2011 to also narrated the confusion of the US military against Iran."General Petraeus, the then head of the CIA, has been interested in retelling the story of a four-star general in Iraq. In early 2008, an Iranian commander sent an SMS to Petraeus."Petraeus desperately needed to be warned that US military and diplomatic efforts in Iraq, Lebanon, and other parts of the Middle East were being analyzed by the Quds Force under the supervision of General Qasim Soleimani."

Other points of the Middle East are being analyzed by the Holy Army under General Qasem Soleimani. "Soleimani is terrifying, he is everywhere and he is nowhere," said a senior US official, according to the Guardian.Many U.S. officials have spent the past few years shutting down members loyal to the Holy Sepulcher and are shocked by what they have done. "A senior US military official says if I see Soleimani, I will simply ask him what he wants from us."

Pompeo acknowledges that he did not know the time and place of the attacks that led to Soleimani's assassination ... In an interview with Fox News, the US Secretary of State accused Soleimani of trying to harm US interests in the region, but he admitted that he had no information about the time or place of these programs ...Statements that contradict previous claims by the White House and the Pentagon that there was an "immediate" possibility of an anti-US operation by Iran ...

Pompeo lied to Fox News: "There is no doubt that a series of immediate attacks were being planned by Qassem Soleimani, (but) we do not know what time it was and when." "

Criticizing Trump's actions, the chairman of the Foreign Affairs Committee of the US House of Representatives said that the US Congress should not be ousted before the assassination of Qassem Soleimani. Senator Booker also said that many questions still need to be answered regarding Trump's use of military force against Iran.

Finally, the CNN headline is the most authoritative American news network to headline. "With the assassination of Ghasem Soleimani, the guarantor of the Middle East grenade was pulled out, it is the most interesting and scary ...

"The tweet of Najah Wakim, the leader of the Lebanese People's Movement, indicates that since the martyrdom of Guevara in 1968, has anyone remembered the names of the people who Received by the President of the United States? On the other hand, who in the world

can be found who does not know Guevara and does not sanctify his name? And the result will be that, "People, the name of Trump and the next corrupt American presidents will be forgotten and will not be erased anywhere but in the trash. "But the martyrs and leaders of the Resistance Front, especially the martyr Qasim Soleimani, will remain forever (in memory) ..

Iran's victory in the wars in the Middle East ...

The total budget of the army and IRGC is at best \$ 6 billion and the budget of the the Ghods army is not higher than \$ 100 million. but the budget that is being spent on Lebanon, Iraq and Syria under the management of the four-star American generals is about 7,000 billion dollars ... Qassem Soleimani did not spend \$ 70 million in Iraq and Syria to defeat the four-star general of the United States with the support of the whole world against the man of God and the two-star Iranian general centered on the resistance of Martyr Haj Ghasem Soleimani.the man of God and the two-star Iranian general centered on the resistance of Martyr Haj Ghasem Soleimani. It is clearly recorded for everyone and we also have it in (Surah Al-Baqarah 249:) How many small groups who, by the command of God, became victorious over great groups and became gods.

The authoritative, decisive and historical position of Iran in West Asia is also testified by the world's media and thought circles. The American Journal of Foreign Policy, which specializes in foreign policy, wrote in an analysis; "Iran has won the war to determine the future of the Middle East (West Asia) ..." Iran's superiority and authority in determining the equations of West Asia is becoming more and more established. To accurately comprehend this definite fact, interesting evidences must be seen in a matter of time and with astonishing coordinates.

Since 2006 when "Condoleezza Rice, Secretary of State America" in response to rocket Beirut in the 33-day war, said the "birth pangs of a new Middle East" until January 2017 that Trump military base Ain al-Asad America in Iraq's Anbar province "It's sad that we spent \$ 7 trillion in the Middle East, but we have to travel there secretly and by plane with the lights off," he said. "Another phase from the start of the

Syrian war and then Iraq and Yemen in full coordination with the United States, Israel, European countries, regional reactionaries and Takfiri terrorists today. That the central victories of the resistance in Iraq, Syria and Yemen shine in the region and the United States is leaving West Asia. On the other hand, the US withdrawal shows itself in the face of the superior destruction of the UAV, which violates the air sanctuary of the Republic of Iran from the British troops and helplessness against the seizure of his ship.

In the meantime, other stunning developments have taken place within some of these time periods. Its example; It is from a meeting in which the leader of the revolution said; "The victory of this war will be like the victory of the trench war ..." and "Tell them to pray joosan saghir ..." As long as the UN John Bolton is very anxious walking along the Israeli ambassador to Qatar's prime minister says, "The war must stop now if not stopped, the Israeli army from collapse and disintegrate.

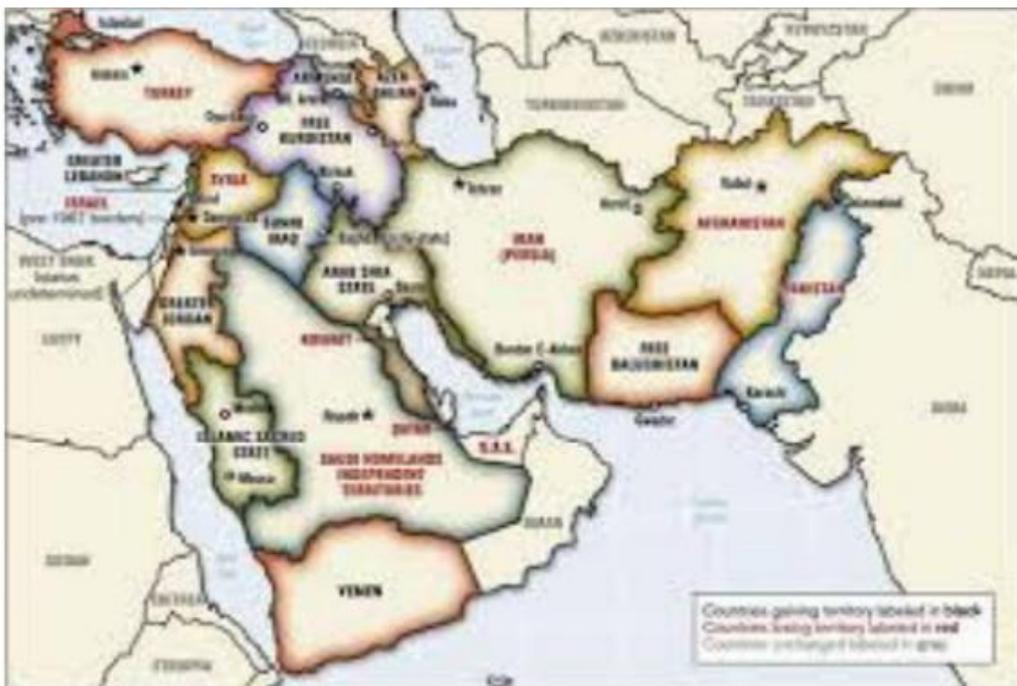

This historical situation, of which the above lines are only some of its signs, is also witnessed today by the media and world thought circles ... The American magazine "Foreign Policy" has succeeded in an analysis with reference to the recent developments in the West Asia region of Iran in the war over the future of the Middle East ... and in the continuation of this specialized publication that works in the field of foreign policy, at the beginning of the analysis, it writes with reference to "Yemen's attack on the oil facilities of Saudi Arabia ..." "The collection of cruise missiles and UAVs that marked the heart of Saudi Arabia's oil industry on September 14 was also a sign of a precise attack on the ruling paradigm of the world ...

Foreign policy sees these attacks as a reflection of a "world of fundamental change" in which Russia and regional powers such as Iran seek to overthrow the regime. According to Fars, this American media outlet wrote the historical significance of the developments in the Middle East in a recent interview with Sardar Ghasem Soleimani, commander of the holy forces of the Revolutionary Guards of the Revolutionary Guards

Signs of the birth of a new Middle East ...

"As in 2006, the world is once again witnessing new Middle Eastern birthplaces, albeit of a very different nature, of course, from what Rice imagined.'" wrote Foreign Policy

America's perception of the new Middle East

"In the past decade and a half, the wars waged by Washington and its allies against the Iranian-led front have all failed," Foreign Policy wrote. Hezbollah plunged Israel into a bloodbath in 2006. Iran's influence in Iraq has been established. Iran and its allies have won the war in Syria. "In addition, the Trump administration's maximum pressure campaign has not been able to break Iran."

The analysis goes on to say: "It is becoming increasingly clear that the US government has neither the capacity nor the political determination to pursue military action." "The White House has made it clear during the Donald Trump era that it intends to reduce the US military presence in Syria and Afghanistan."

Foreign Policy also wrote in this interview that General Soleimani described the situation in the region that led to the Hezbollah-Israeli war in 2006. In this interview, Sardar Soleimani, in the words of "Condoleezza Rice", the former US Secretary of State, described the conflict between Hezbollah and Israel as the signs of the birth of "a new Middle East".

- A true picture of the new Middle East

"Due to struggle axis of resistance under the leadership of Imam Khamenei and Sepah democracy martyr Haj Qassem Soleimani and martyrs worthy defenders of the shrine of warriors axis of resistance Vhmfkry consistent between the leaders and the leaders of the resistance axis first global arrogance led by America and NATO, from the axis of resistance, They suffered a severe defeat That was just one of the brilliant results of the defeat and destruction of ISIS, that the United States alone traveled to more than 120 countries to bring it about. "It lost 7 billion dollars and wasted ... The most important result of this victory is the formation of a new Middle East and centered on the Islamic Republic of Iran ..."

What did Martyr Qassem Soleimani build for the future ...

Qasem Soleimani's role in dealing with terrorist groups may not be so understandable in the current situation and it can be understood years later as the dimensions of the Western conspiracy in this region become clear. At a time when Western nations have been talking about religious strife in the region for 30 years, it was Iran, led by Qasem Soleimani, that was able to thwart this conspiracy. A conspiracy that was to eradicate the full role of Islam in the political affairs and the complete de-religionization of this region. Not only are the terrorists in the Middle East now completely suppressed, but we have witnessed that the return of ISIS terrorists to Europe has caused a lot of suffering for the West.

In order to understand the role of Martyr Qasim Soleimani in the confrontation with ISIL, it may be enough that after his martyrdom, the ISIL attacks on Iraqi military bases once again escalate. However, it is essential to note that the Haj Qassem Soleimani, commander of the moral and material supply such a broad-based resistance to provide a return to the previous situation would not be possible even with a power such as America. An issue that is already being addressed by all experts.

- What is the revenge of the blood of martyr Qassem Soleimani?

"What does just stories mean?" "Who is the weight of Qasim Suleiman?" "Hajj Qasim's shoes are more valuable than Trump's head ..." Everything is clear, it is clear The type of operation and its

perpetrators, the elimination of the US military presence in the region, is the just retaliation of the martyrdom of Suleiman. The only just retaliation is the absence of the United States in the region. These are the only just retaliation of the blood of martyrs Soleimani and Abu Mahdi. I will take responsibility for my words. We will humiliate and cowardly expel America from the region by crying ... "Seyyed Hassan Nasrallah

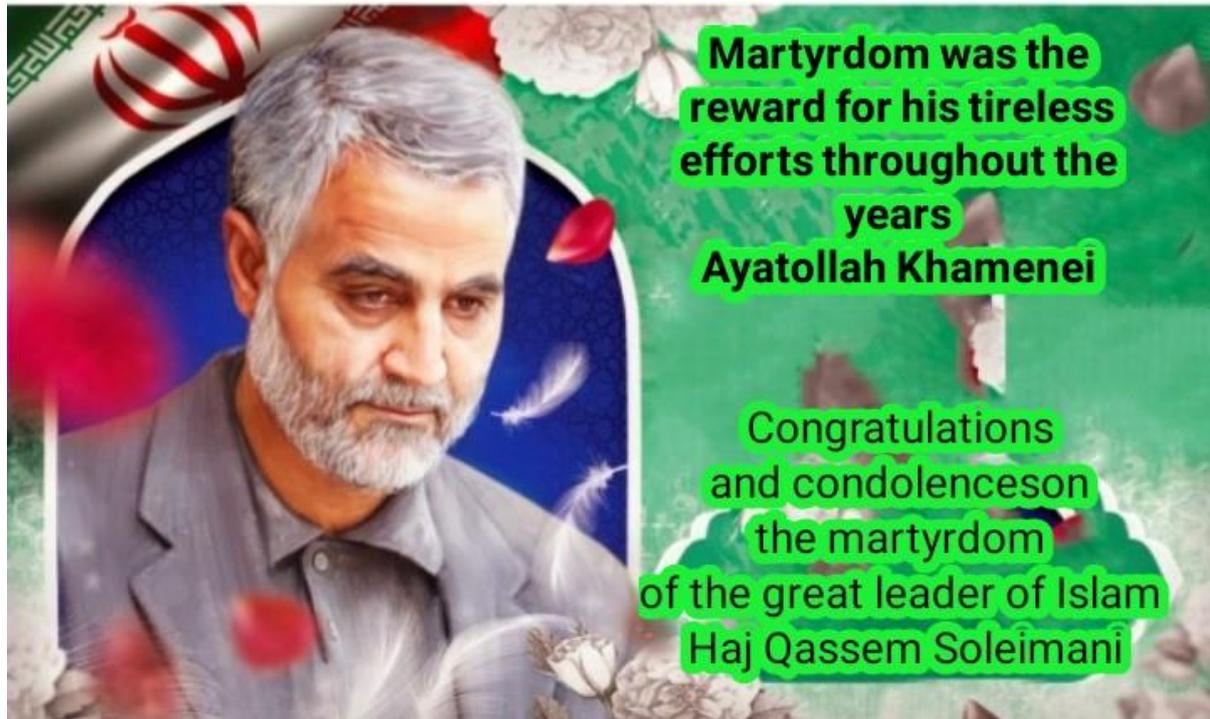

How did we lose our national capital?! ...

When I was saying goodbye to the captain, I said, "For God's sake, take care of yourself. You are not just your own." he kissed me and said goodbye. Unaware that this is his last detailed interview. It did not take long for the news of the martyrdom of Sardar Hamedani to be published ... I was shocked, I was very sad and I was wondering why our commander should be martyred like this in the square instead of commanding the security headquarters. But I was still happy to have Hajj Qasim, the leader and commander of the resistance. Elsewhere, when I was interviewing one of the commanders of the Quds Force, I said the presence of Sardar Soleimani as a national capital, but also the capital of the Islamic world and his resistance front, turned it into a great goal and a goal for the enemy; He laughed and said that no one is his opponent, he should be right on the field. First of all, pray for their health and also do not worry. Iran has a lot of Hajj Qasim!

I said he has become a symbol of Iran's foreign power, if, God forbid, he is beaten by the Americans or the Israelis, can we take a worthy revenge? Will this hard revenge not end with the great war that some regional governments aspire to ?! He said do not be afraid, they do not dare to do such a thing! The likes of Qasem Soleimani were the extracts of years of experience, resistance and command. Losing such valuable forces is a catastrophe for any nation and military, it may be irreparable, Just as it was irreparable to lose the likes of Shahid Beheshti and Shahid Motahhari ... I have not written these things to diminish the value of his martyrdom, I wrote these so that we can take care of our other human assets and so that another nation does not wear black and mourn ... And in the opinion of many, including Hojjatoleslam Ghasemiyan, who was broadcast on the Jahan Ara TV program on the Ofogh network, our passions against the United States are the cause of the martyrdom of Hajj Qas.

In his words, "during the Barjam period, the flag of resistance was lowered and the flag of loyalty and weakness was raised high! ..." Haj Qasim was a professional diplomat, a man of dialogue, discourse and negotiation. "But there is a difference between someone whose negotiating table is a tool of struggle and someone whose tool is weakness and commitment ... "Strong reciprocal action was not taken by us after the United States violated the UN Security Council, while the Qur'an says that even if the 'signs' of betrayal were to appear, they would be removed." And this interpretation is the same as the words of a leader who said, "If they destroy Barjam, we will set it on fire ..."

"Unfortunately, the past and present passions of the corrupt, the moderates, the tired fundamentalists, the painless affluent, and ... the cause of America's audacity, and ultimately the cause of the martyrdom of Hajj Qasim ..."

- From Haj Qasim referendum in Iran, to Abu Mahdi referendum in Iraq

The fact is that Islamic societies over the past two centuries, due to their involvement in corrupt and reckless and influential rulers, have suffered from intense political and political inactivity and dependence in the face of the new Western civilization and colonial systems. The idea of "dependent development" is not only in Iran, which has been established throughout Muslim countries such as Egypt, Iraq, Hejaz and Saudi Arabia, Turkey and other Islamic countries and a spectrum formed in Islamic societies is a graduate of European universities.

And he believes that there is no way to solve economic and social problems other than following the West and Western versions and copying Western structures! ...

The Islamic Republic, with the aim of establishing the same thesis, proposed the "we can come up with a new idea" and gave hope to other nations. and this "we can" has been demonstrated in many arenas. But that "morbid thinking" is still present in the western sequences in Iran to the point where today it represents this spectrum in the guise of the highest executive in the country after hanging for 7 years in the west, and the complete failure of "Barjam", explicitly states: "I do not know" to solve the economic problems of the country without any connection with the world (America and Europe)! ...We have been caught in this current of thought in Iran for years; By the same token, they have surpassed the country's nuclear power and have been talking about a referendum for years. They proposed a referendum on overcoming missile power and regional authority in Iran!

Funeral several tens of millions Haj Qassem Soleimani as a symbol of international authority and regional influence of Iran show that the Iranian people does not forgive his authority and regional defense and strategic policy in respect to symbolize all stand tall!

After the martyrdom of Hajj Qasim Soleimani and Abu Mahdi al-Mohandes, the commander of Hashad al-Shaabi, there was not only Iran but also a sense of revenge against the United States throughout

the Islamic world, especially in Iraq. The demand for the withdrawal of the United States from Iraq became the first demand of the political groups in Iraq and its plan was approved by the parliament and the government was obliged to implement this decision ...

The gathering of millions of Iraqis against the US military presence in this country can be considered Abu Mahdi's referendum ... Hajj Qasim and Abu Mahdi held a major referendum in Iran and Iraq that the governments and territories of Muslim countries should not be dependent on the United States and arrogant powers. Do you see this referendum?

In fact, according to the Washington Post and the Hudson Institute, in separate memoirs, they called the assassination of Martyr Qasim Soleimani an apocalypse ... Hudson describes the martyrdom of Qasim Soleimani as the life of the deep sacrifice of the Twelfth Imam, and goes on to say: "We are entering an important part of the apocalyptic period

Insight battle clothes ...

So now tell me, where does the sedition of the world come from? ...
From the Jews ...

The Jew who is our obvious enemy according to the clear text of the Quran ...

In the Qur'an, God explicitly declares the enemy of man, one is evil and the other is Jewish .

لَتَجِدَنَّ أَشَدَّ النَّاسِ عَدَاوَةً لِلَّذِينَ آمَنُوا الْيَهُودَ

أَلَمْ أَعْهَدْ إِلَيْكُمْ يَا بَنِي آدَمَ أَنْ لَا تَعْبُدُوا الشَّيْطَانَ إِنَّهُ لَكُمْ عَدُوٌّ مُبِينٌ

So the hands of the two are in the same bowl ... When Imam Khomeini (may God have mercy on him) announced

That Israel is a cancerous gland and must be eradicated ... He saw the end and goal and the end of this revolution, which, God willing, will lead to the advent of Hazrat Hojjat (may God hasten his fate) ... So we must be pure Israel in order to achieve this goal ...

After Hazrat Ruhollah, the successor of his successor, Hazrat Seyyed Ali Agha, also said that the western shore should be equipped with weapons ... Now, Hajj Qasim, how far has it gone? ... up to 70 kilometers in the heart of Israel ...

The smell of Hajj Qasim's shoes smells like Israeli ... A revolution that one day involved its own internal hypocrites suddenly appears under the roof of Israel ... Now it is time to infiltrate. Infiltration missions are announced ...

Two things have to be done

1- Limiting the IRGC's power and even dissolving it 2- Removing commanders at once

Voices are rising in the country ... I can not give rights to the military ... The corps must be disbanded or merged ... the missile must be signed and executed ... all attacks are carried out to destroy the corps' image among the people ... "

"An army whose Quds Force under the command of Hajj Qasim is no longer just a force, Rather, the rise of this force is in the process of forming and establishing the religious superpower of the world under the command of the Infallible Imam ..."Hezbollah, Syrian Patriotic Force, Haidarion, Fatimids, Zainab, Nabiyun, Alawites, Hashad al-Shaabi, Ansarullah"

Now such an army must be destroyed ... Who actually wants to strike the army and disband it? Yes, Israel is right ... when the army is defeated, the rest of the resistance forces fall to the ground one after the other ...Whoever is attacking the army is in fact attacking the axis of resistance ...Now who is the one who is fulfilling this wish ???Yes, intentionally or unintentionally, they are "the force of Israel and global Zionism" ... If the army disappears, who will benefit the most and breathe a sigh of relief? ... Yes, that's right ... "Israel"

The second mission is to hit the IRGC commanders ...

In the past months, three assassination plots of the senior commanders of the army were carried out ...That in the third terror, Hajj Qasemman was beaten ... In examining these three assassinations, we notice that they were completely oriented from inside and outside, and the enemy was already waiting for their assassination ...Now, who is

on a mission to disband the army? ... Now see for yourself and hear who is behind this adventure? ..."The resistance front is splitting the arrogance front and moving forward ... so the tail of Ali's tent must be crowded .." Today, the rioters should chant the slogan against the principle of " guardianship of Faqih " and the most important security element of the system, namely "Sepah" ...

"My dear ones, know that these are exactly the two principles that have preserved Islamic Iran in this media war ... If, like Sardar Hajizadeh, you pass over your reputation for preserving Islam Mahdavi, you will not win ...do not pursue a war similar to the war of defending the sanctuary, it is over ... Until the advent of the Prophet, the essence of wars is strife and media war ... Put on your "insight" battle costume, take your reputation in the palm of your hand and come to the square

The text of the will of General Qassem Soleimani, Commander of the Quds Force

The Islamic Revolutionary Guard Corps is as follows:

in the name of God

I testify to the principles of religion

اشهد أن لا اله الا الله و اشهد أن محمداً رسول الله و اشهد أن امير المؤمنين على بن ابي طالب و اولاده المعصومين اثني عشر ائمتنا و معصومينا حجج الله

I testify that the resurrection is right.

The Qur'an is the truth. Heaven and hell are right. Questions and answers are right. Resurrection, justice, Imamate, prophecy is the truth ...

"God! Thank you for your blessings."

God! Thank you for having me rigid to rigid, from century to century, from rigid to rigid transferred Kurdish and within the time allowed the emergence and gave it possible to understand one of the most important relationships in which close and nearly infallible is a good servant Tvyny "Great Khomeini" To understand and become a soldier of his footsteps.If I did not have the success of the Companions of the Great Prophet Mohammad Mustafa and if I had not benefited from the period of oppression of Ali ibn Abi Talib and his innocent and oppressed children, you would have set me on the same path that they took their own lives and took their own lives in the same path.

God! I thank you for putting me in the path of another righteous servant after your righteous servant "Dear Khomeini".That his oppression is great for his righteousness, the man who is the ruler of Islam and Shiism today and Iran and the political world of Islam, dear Khamenei that my life should be sacrificed for his life.

O Lord! Thank you for mixing me with your best servants and understanding kisses in their heavenly forms and inhaling the fragrance of their cheap perfume and their manifestation.

God! Dear Almighty and Merciful Provider, I prostrate before you for placing me in the path of pure Fatima and her children in the true religion of Islam. and you benefited me from the tears of the children of Ali ibn Abi Talib and Fatima.

What a great blessing which is your highest and most valuable blessing; The blessing in which there is light and spirituality, the restlessness that has the highest states within itself, the sorrow that has peace and spirituality.

God! Thank you for benefiting me from my poor but pious and loving Ahl al-Bayt parents and constantly in the path of purity. I desperately ask you to associate them in paradise with your saints and to help me understand their presence in the Hereafter.

God! I hope for your forgiveness

Dear God and O unique and wise Creator! My hand is empty and my backpack is empty, I come to you without any leaves or baggage in the hope of feasting on your forgiveness and cream. I did not take any luggage; Because the poor (ra) near Karim, what is the need for luggage and leaves ?!

I am full of hope in you and your grace and mercy,I have brought with me two blindfolds, the wealth of which, along with all the impurities, has a valuable treasure, and that is the gem of tears for Hussein, the son of Fatima.. The gem is tears for the Ahl al-Bayt; The essence of tears is defending the oppressed and the orphan, defending the confinement of the oppressed in the hands of the oppressor.

God! I have nothing in my hands; Not for the sake of offering (they have something) and not for the power of repulsion, but in my hand I have memorized something that I hope for, and that is to be constantly flowing towards you. When I raised them to your side, when I laid them on my knees and knees in remembrance of you, when I took up arms to defend my religion; These are the "wealth I have" that I hope you have accepted.

God! My legs are weak. My legs are not strong. He does not dare to cross the bridge that goes through hell. I tremble in the normal bridge and my legs, woe to me and your path which is thinner than my hair and more victorious than a sword; But a hope gives me hope that I may not tremble, that I may be saved.

I have set foot in your shrine with these feet and I have circled around your house and I have stripped them naked in the shrine of the saints between the shrine of Hussein and Abbas. and I curled these legs in long trenches.

And in defense of your religion I ran, I struggled, I crawled, I cried, I laughed and I laughed and I cried and I cried; I fell and got up. I hope you forgive those jumps and crawls and respect those sanctuaries.

God! My head, my mind, my lips, my lungs, my ears, my heart, all my organs and joints are in the same hope.

Or the kindest of the kind! Accept me; Accept clean; Accept as much as I deserve to see you. I do not want anything but your sight, I will be near you, O God! God! I am left from the caravan of my friends

God, dear! I have left a caravan for many years and I am constantly sending people to it, but I have stayed there, but you know I have never been able to forget them. Constantly remembering them, their names, not in my mind but in my heart and in my eyes, were remembered with tears and sighs.

My dear! My body is in a state of disarray. How can you not accept someone who has been with you for forty years?

My Creator, my Beloved, my love that I have always asked you to fill my whole being with love for yourself; Burn me and die in your separation.

My dear God! I have gone to the deserts out of restlessness and the scandal of survival; I go from one city to another in hope and from one desert to another in winter and summer. Karim, Habib, I am attached to your dignity. You know I love you. Well, you know, I do not want anything but you. Attach me to you.

God! The savagery has taken over my whole being. I am not capable of restraining myself, do not disgrace me. With respect to those whom you have made obligatory on yourself, before breaking the privacy that the sanctuary damages them, take me to a caravan that has come to Suway.

My lover, my love and my beloved, I love you. I saw and felt you many times, I can not stay away from you. That's enough. Accept me, but I deserve to be you.

Addressed to my Mujahideen brothers and sisters ...

My brothers and sisters of the Mujahideen in this world, those who have lent their heads to God and taken their lives in their hands and sold them in the love market! Please note: The Islamic Republic is the center of Islam and Shiism. Today, the residence of Hossein, son of Ali, is in Iran. Know that the Islamic Republic is a sanctuary and if this sanctuary remains, the other sanctuaries will remain. If the enemy destroys this shrine, there will be no shrine left, neither the Abrahamic shrine nor the Muhammadan shrine (peace be upon him).

My brothers and sisters! The Islamic world is constantly in need of leadership; The leader is attached to and appointed by the Shari'a and jurisprudence to be "infallible".

You know very well that the purest religious scholar who shook the world and revived Islam, that is, our great and pure Khomeini, saved the "Velayat-e-Faqih" only by saving his version; Therefore, those of you who believe in that religion as a Shiite and those who believe in it rationally as a Sunni, know (should) do not leave the tent of the province to save Islam, far from any dispute. The tent is the tent of the Messenger of God. The basis of the world 's enmity with the Islamic Republic is to set fire to this tent and destroy it. Rotate around it.

I swear by God, if this tent is damaged, Baitullah al-Haram and the city of the sanctuary of the Messenger of God and Najaf, Karbala, Kazemin, Samra and Mashhad will not remain; The Qur'an is damaged.

Addressed to Iranian brothers and sisters ...

My dear Iranian brothers and sisters, my proud people, may my life and the lives of others like you be sacrificed thousands of times for you. At least you sacrificed hundreds of thousands of lives for Islam and Iran; Take care of the principles. Principles means guardian of the jurisprudent, this sage, oppressed, educated in religion, jurisprudence, mysticism, knowledge; Consider Khamenei, especially Aziz, dear. Consider his sanctity the sanctity of the sacred.

Brothers and sisters, fathers and mothers, my dear!

The Islamic Republic is going through its proudest period today. Know that it does not matter how the enemy looks at you. How did the enemy look at your prophet and how did the (enemies) deal with the Prophet of God and his descendants, what accusations were leveled against him, how did they deal with his pure children? The condemnation of the enemies and their hatred and their pressure should not divide you.

Know that you know, the most important art of dear Khomeini was that he first brought Islam to Iran and then placed Iran in the service of Islam. If there was no Islam and if the spirit of Islam did not rule this nation, Saddam would tear this country like a wolf; America did the same thing like a rabid dog, but it was Imam Khomeini's art to bring Islam to fruition; Bring Ashura and Muharram of Fatimids to the power of this nation. It created revolutions in the revolution. For this reason, in every period, thousands of self-sacrificers have

sacrificed their lives for you and the people of Iran and the land of Iran and Islam, and have humiliated the greatest material powers. My dear, do not contradict the principles.

Martyrs are the axis of honor and dignity for all of us; Not for today, but they are always connected to the vast sea of God in the morning. See them as big as they are in your eyes, heart and tongue. Introduce your children to their names and pictures. Look at the children of the martyrs, who are the orphans of all of you, with the eyes of politeness and respect. Respect their spouses and fathers and mothers, as you forgive your children, pay special attention to them in the absence of your fathers, mothers, wives, and children.

Respect your armed forces, commanded by the Supreme Leader today, to defend yourself, your religion, Islam and the country.

And the armed forces must protect, support, politely and respect the nation and its land, as well as the defense of their home. and in relation to the nation, as the Amir al-Mu'minin said in the case of the pious, the armed forces should be the source of the nation's dignity, and its fortress and refuge should be the oppressed and the oppressed.

Respect your armed forces, commanded by the Supreme Leader today, to defend yourself, your religion, Islam and the country. And the armed forces must protect, support, politely and respect the nation and its land, as well as the defense of their home. And in relation to the nation, as the Amir al-Mu'minin said in the case of the pious, the armed forces should be the source of the nation's dignity, it should be

a fortress and a refuge for the oppressed and the people, and it should be the ornament of his country.

Addressed to the dear people of Kerman ...

I also have a point addressed to the dear people of Kerman; The people who are friendly and have made the highest sacrifices during the 8 years of defending the sanctuary, and the leaders and Mujahideen have brought a very high position to Islam. I am always ashamed of them. They trusted me for eight years because of Islam; They sent their children to massacres and fierce battles, such as Karbala 5, Wal-Fajr 8, the Holy Road, the Conquest of Al-Mubin, Jerusalem and they founded a large and valuable army in the name and in the love of the oppressed Imam Hussein, the son of Ali, in the name of Sarullah. This army, like a drawn sword, once again made the hearts of the Muslims and Muslims happy and removed the sorrow from their faces.

Dear! I, by the grace of God, have passed away from you today. I love you more than my parents and children and my siblings, because I was with you more than them; Besides, I was a part of them and they were a part of me. But they also agreed that I would vow my existence to you and the people of Iran.

I want Kerman to stay with the leadership forever and to the end. This leadership is the leadership of Ali ibn Abi Talib and his tent is the tent of Hussein Fatima. Look around it. I am with you all. You know, in life I paid more attention to humanity, emotions and instincts than to

political colors. My address to all of you is that you know me as you are, you know me as your brother and your child.

I command you not to leave Islam alone at this time when it is associated with the Islamic Revolution and the Islamic Republic. Defending Islam requires special intelligence and attention. In political matters, when it comes to Islam, the Islamic Republic, the holy places, and guardianship of Faqih, these are the color of God; Prefer the color of God over any color.

Addressed to the families of the martyrs ...

Children, sons and daughters, children of the martyrs, fathers and mothers remains of the martyrs, the lights blazing in our country, siblings and spouses loyal and faithful martyrs in this world, a voice that day I heard and familiar with it. I like the sound of Quran It calmed me down and I knew that my greatest spiritual achievement was the voice of the children of the martyrs, with which I was acquainted on a daily basis; It was the voice of the martyrs' parents that I felt the presence of my parents in them.

Dear! Until the forerunners of this nation know your worth. Make your martyrdom manifest in yourself, so that everyone who sees you, the father of the martyr or the child of the martyr, feels the same as the martyr himself, with the same spirituality and privacy, strength.

Please forgive me. I have not been able to do the right thing for many of you and even the children of your martyrs, I am also asking for forgiveness and I am asking for forgiveness.

I would like the children of the martyrs to carry my corpse, maybe thanks to the blow of their clean hands on my body, may God take care of me.

Addressing the country's politicians ...

I have a short point addressed to the politics of the country: what are those who call themselves reformists and what are those who are fundamentalists. What I have been constantly suffering from is that in two stages, we forget God and the Qur'an and our values, but we sacrifice in general. Dear ones, you compete with each other and you have any controversy with each other, but if your actions and your words or your debates were in a way weakening religion and revolution, you know, you are the object of the wrath of the Holy Prophet of Islam and the martyrs of this path; Separate the borders. If you want to be with each other, the condition of being together is agreement and explicit expression about principles. Principles are not long and detailed. Principles of expression There are several important principles:

The first is their practical belief in Velayat-e-Faqih; That is, to listen to his advice, to act wholeheartedly on his advice and reminders as a true religious and scientific physician. One who wants to assume responsibility in the Islamic Republic, the basic condition of which is (that is) to have a real and practical belief in guardianship of Faqih. I am not saying that guardianship is too hot, nor am I saying that it is legal; guardianship Neither of these solves the problem of unity;

A legal guardianship is specific to the general public, both Muslims and non-Muslims, but it is a practical province for officials who want to carry the important burden of the country, especially the Islamic country with these martyrs.

True belief in the Islamic Republic and what is its basis; From ethics and values to responsibilities; What is the responsibility towards the nation and what is the responsibility towards Islam.

By employing people who are chaste and believe in and serve the nation, not the people who, even if they reach the table of a village, evoke the memory of the former khans.

Make it their way to fight corruption and avoid corruption and luxuries.

In the period of his rule and sovereignty, in any responsibility, he should respect the people and serve them as worshipers, and he should be a real servant, developer of values, and not give false values with false justifications.

Officials Like Fathers society should be their responsibility regarding the education and protection of the society, not carelessly and because emotions and draw some votes fleeting sensation of moral support that develop divorce and corruption in society and break up families.

Governments are a major factor in strengthening the family, and on the other hand, they are an important factor in breaking up the family. If it is done according to the principles, then everyone is on the path

of the leader and the revolution and the Islamic Republic and a correct competition based on these principles for the selection of the correct and better.

Addressed to the brothers of the army ...

I have a short word for my dear and devoted army brothers and armies: Establish the responsibilities for the election of commanders, the courage and the power to manage the crisis. It is natural that I do not refer to the guardianship, because the guardianship is not separate from the armed forces, but is the basis for the survival of the armed forces. This condition is inviolable.

Another point is timely recognition of the enemy, his goals and policies, and timely decision-making and timely action; Each of these, if taken for granted, has a serious effect on your success.

Addressed to scholars and supreme authorities

A short speech from a 40-year-old soldier in the field to the great scholars and valuable authorities who bring about the enlightenment of society and the elimination of darkness, especially the clergy. Your soldier saw from a watchtower that if this system were to be damaged, religion and some of its values (which) you have struggled with in certain areas would disappear. These courses are different from all other courses. This time, if they dominate, there will be nothing left of Islam. The right way is to support the revolution, the Islamic Republic and the Supreme Leader, without any consideration. In the events, others should not consider you who are the hope of Islam. All of you

loved Imam Khomeini and believed in his way. Imam's way of fighting the United States and supporting the Islamic Republic and Muslims under arrogance is under the banner of the Supreme Leader. I see with my imperfect intellect that some human demons have tried and are trying to silence the influential authorities and scholars in the society with their words and the state of truth. The truth is clear; The Islamic Republic and the values and the jurisprudence of Imam Khomeini's heritage? They are and should be given serious support. I see the Grand Ayatollah Khamenei very oppressed and alone. He needs your support and help and you, the nobles, should direct the society by your expression and your meetings and your support with him. If this revolution is damaged, even the time of the accursed king will not be, indeed, the attempt of arrogance for pure atheism and deep deviation will be irreversible.

I kiss your blessed hand and apologize for this statement, but I would like to offer you a face-to-face appointment that success will not be achieved.

I am your soldier and I ask for forgiveness from everyone. I ask for forgiveness from my neighbors and my friends and colleagues. I ask for forgiveness and pardon from the warriors of the army of Tharullah and the great force of Quds, who is the thorn in the side of the enemy and the obstacle of his path; Especially from those who helped me as brothers.

I can not name Hussein Pourjafari, who helped me like a child in a benevolent and brotherly way, and I loved him like my brothers. I apologize to his family and all the brothers who fought and fought for their hard work. Of course, all the brothers of the Holy Force had my brotherly love and help, and my dear friend Sardar Qaani, who patiently endured me.

Qassem Soleimani

The largest Shiite funeral in history!

O people of the shrine, Mir and the scholar did not come ... How can I believe the news of your departure, Sardar? ... Can't you see that the shamans have taken Ali away? ... Get up, brother, my heart has gone to "Bin Al-Harmin" next to Alqama ... All the members of my being are calling ... O people of the shrine, Mir and the scholar did not come Arise, our hearts long for your smile, for your insight, for the desires of your martyrdom ... "Get up, Commander of the Iranian Army" ... Rise Up There are still many conquests left ...

Lift up, my heart aches for the bending of your eyebrows ... How can I believe that you are leaving?! ... But with the "funeral that was unique from the beginning of human creation to the present" (considering the population of Iraq, Iran, etc.), I came to believe that I lost you ... But I still can't wait and believe that you are not by our side ...

So much so that you were martyred in the mountains and desert. Until the last time he hugged you ... you were a martyr ... and now your

helpers have taken you away. I swear by the honor of your mother, they have to pay for every drop of blood ...

These days, when we all claim and wish that if it happens, each of us will be a Suleimani leader for the revolution, we know better than anyone else. The condition that he complied with all. do not despair after the war, and accepting God has a mission for him.

He worked sincerely. Service without any expectations and away from hypocrisy. Most important of all, however, he tied himself to the martyrs. He was less likely to be interviewed about himself. He almost escaped from this story, but when he was about to tell his comrades about the martyrs, the front and the war, he left a complete stone unturned. Looking back on his memoirs, you see that the old holy defense soldier and our beloved international general that even his enemies referred to him by such titles as "worthy enemy" these days, had a good observation of the martyrs. General, the admiration that the enemy military media and analysts refer to as the "Shadowless General", he puts himself in charge of the revolution

The leadership that the children of the martyrs who defended the shrine called him "Uncle Qasim" and for them was like a father. A father who, like a mother, hugged them and wiped their tears. The same merciful commander and prayer leader who, when he takes the flower branch from the son of the martyr who defends the shrine at the beginning of the prayer, takes our hearts. Sardar's photos are so different from each other that it is as if we see another man in every

photo. In a photo, the roar of his gaze evokes fear in the heart of the enemy and pride in the heart of a friend. A look that perhaps depicts Alavi's repulsion. In another picture, his eyes laugh so kindly that he is not in control and you are attracted to him ...

The most wounded martyr ...

Ayatollah Khamenei said on the body of Martyr Kazemi, "It is a pity that you usually die. You should be martyred ..." The blood of some people is a pity to be buried underground, it must fall to the ground and bloom! ... Sardar Basiji, Haj Qasem Soleimani is a good example of these ... It was a pity that the leader who confronted the terrorists of ISIL, Israel and the United States face to face died!

It was even a pity for an ordinary martyr ...

When Hussein met the divine in the pit of the slaughterhouse, he had a sign from every martyr of Karbala ... He was shot, he was stabbed, he was stoned, he was stabbed with a sword ... he was even stabbed three times.

The blood on his forehead spilled into his eyes. And they cut off his head from the neck ... so that no martyr like Hussein was martyred, not even Hazrat Abbas (PBUH) ...In short, the servant of the mullah must be indicated ...

Soleimani, dear leader and nation, showed the martyrdom of Hajji, the martyrdom of Sadrzadeh and the martyrdom of Hamedani, the martyrdom of Taghavi and the martyrdom of Zolfaghari and ...

Hajj Qasim was torn to pieces, his heart was hot with each of the martyrs defending the shrine, and it seems that all those hot spots were exposed today ... I swear to God, they hit Hajj Qasim with cowardice, they hit him with a missile from a helicopter from the air!

And he was not like the other martyrs defending the shrine in the war campaign, exactly two days before Imam Khamenei said, we are not followers of the war!

Haj Ahmad Motusallian said, "I wish to be martyred by the fiercest enemy, Israel." This means that great human beings have great goals and enemies ... "Hajj Qasim was martyred by the most vicious of this world and the great devil ... special human beings must become very special in heaven ..."

The US president arrived in Iraq overnight on an unannounced military plane that had all its windows covered to meet with US troops at Ayn al-Assad air base west of Baghdad ... Trump acknowledged that the United States had spent \$ 7,000 billion in Iraq and Syria, and that its president had to fly in overnight on a military plane without Iraqi security. Today, thanks to victories in the axis of resistance, Qassem Soleimani, the friendship can go on board the vehicle from Tehran to the border with occupied Palestine with dignity and strength, without anybody stop them ... "Without a doubt, the greatest relic Haj Qassem Soleimani Is ... "

"One of the fruits of the victory of the resistance that coincided with America's withdrawal and apathy Europe to Brjam (you read" Death

Brjam ") between the two views after Chhmlyn anniversary of the Islamic Revolution who loves Islamic Revolution should really pay attention ... "

The first view is based on Atkal to God and appeal to the 14 Imams (peace be upon him) and follow upon the orders of the Supreme Leader and looked into the victory of the resistance axis motion jihadi defenders temples of various nations under the command of such an army general resistance Qasem Soleimani is the one who resisted with the sacrifices of the martyrs and the sacrifices of the fighters and gave honor and pride to Islam and Iran ... The second view was the theory based on the external view and the idea of "winning" that first trusted the world's enemy and arrogance and secondly, they fulfilled all their obligations without taking the necessary guarantees, and most importantly, they did not comply with the terms of the leadership in the negotiations, which after years became "pure damage"and failure.

Even though admitting defeated Brjamy that the purpose of Brjam "economic" was a bit late, but it is not strange, because according to the Ansar News, the aim of signing Brjam As previously themselves in a need for an "American think tank", otherwise It was acknowledged that only the political wing was there to win the election, and nothing else. I only wish that, instead of further insult to the intelligence of the people, to say clearly why then falsely claimed that the interior is scheduled to start Brjam signed by all the problems of the banking sanctions to problem drinking, marriage, unemployment and dust and ... Will it be solved with that ?!

"The view of resistance" was only "won", which was achieved through resistance, jihad and obedience to the leadership, without giving privileges to the enemies ... "

The view of negotiation and interaction that put "win" on its tablet and with the confidence it had in Chief and Europe, became "lose" by giving general privileges and closures and eliminating core activities and ...

Is it after the greatest American crime in the last 100 years against the Iranian nation and the shameless support and savagery of European savages from this action to speak again of the next steps of Barjam and support of FAFT and ... is not betrayal and stupidity? ...Shouldn't all these dirty deals be dumped in the trash forever? Some people have not yet noticed that our account has been zeroed with Europe and America, and still some people inside are looking for European chocolates !! The positions of the German, British and French armies and the arrogant front in support of the American crime in the martyrdom of Hajj Qasim Soleimani showed "How ridiculous the simple claim of a rift between Europe and the United States!"

"After the closure of the subsequent agreements with the United States, the proof that the rift between these demons was a lie is the second fruit of the pure blood of Haji Qasi. If the power of human analysis is not to be enriched, instead of making a statue of martyr Tehrani Moghaddam or Haj Qassem and scientists without receiving a penny, enriched by twenty percent created (martyr Prince), "Statues

are made of those who destroyed these achievements by receiving hundreds of coins and medals ..." "Gentlemen, listen carefully, after the martyrdom of Sardar Soleimani, the game is over! ...After the martyrdom of Qassem Soleimani, from today, whoever talks about negotiating with the United States and agreeing with the FATF, this growing and grieving nation slaps its mouth with its hand and breaks its mouth The enemy should know that after the martyrdom of Hajj Qasim Soleimani, most of the babies who were born were named after him, Qasim, Mohammad Qasim, Amir Qasem. The enemy should know that the Qasims are being born and, like the children in Khomeini's cradle, they are darkening life for America and its bloodthirsty torment.and in the words of Ayatollah Khamenei, "Khorramshahrs is ahead" ... In the end, with a word from the Qur'an, take a word, O people of intellect "... We end our article ... Ya Ali Madad

pleas pry for me

People, accept me, I am not a member of any party or faction, and I do not want Islam or the revolution in any way except the one who serves. But know this, I swear to God, I know the Shiite scholars completely and closely. This is my job for 14 years now. I know the Lebanese scholars, I know the Pakistani scholars, I know the Persian Gulf scholars, both Shiites and Sunnis. I swear by God and I bear witness that the head of all these clergy, these scholars from Iranian and non-Iranian authorities, is this great man of history, the Grand Ayatollah Imam Khamenei. If you want a good end, we must follow the Supreme Leader. On the Day of Resurrection, we will see that the most important axis in calculating deeds is following the guardianship of Faqih. In the country, nothing should be said against the policies and menus of the Supreme Leader of the Revolution, and even if it is said and there is no protest, we share in its guilt. Martyr Qasim Soleimani
